

VENTA LW25

Venta LW25 Original Humidifier User Manual

Model: LW25

1. INTRODUCTION

The Venta LW25 Original Humidifier is designed to humidify dry room air in spaces up to 430 square feet using a filter-free evaporative humidification process. This method is recognized for its efficiency and ability to maintain optimal indoor air quality without over-humidification. The unit also helps to naturally reduce airborne pollutants, eliminate static electricity, and protect wooden furniture and musical instruments.

2. SAFETY INSTRUCTIONS

- Always unplug the unit before cleaning or refilling the water.
- Do not immerse the electrical components in water.
- Ensure the unit is placed on a stable, level surface.
- Keep out of reach of children and pets.
- Use only tap water as specified.

3. SETUP

1. **Unpack the Unit:** Carefully remove all components from the packaging. Ensure all parts listed in the "Included Components" section are present.

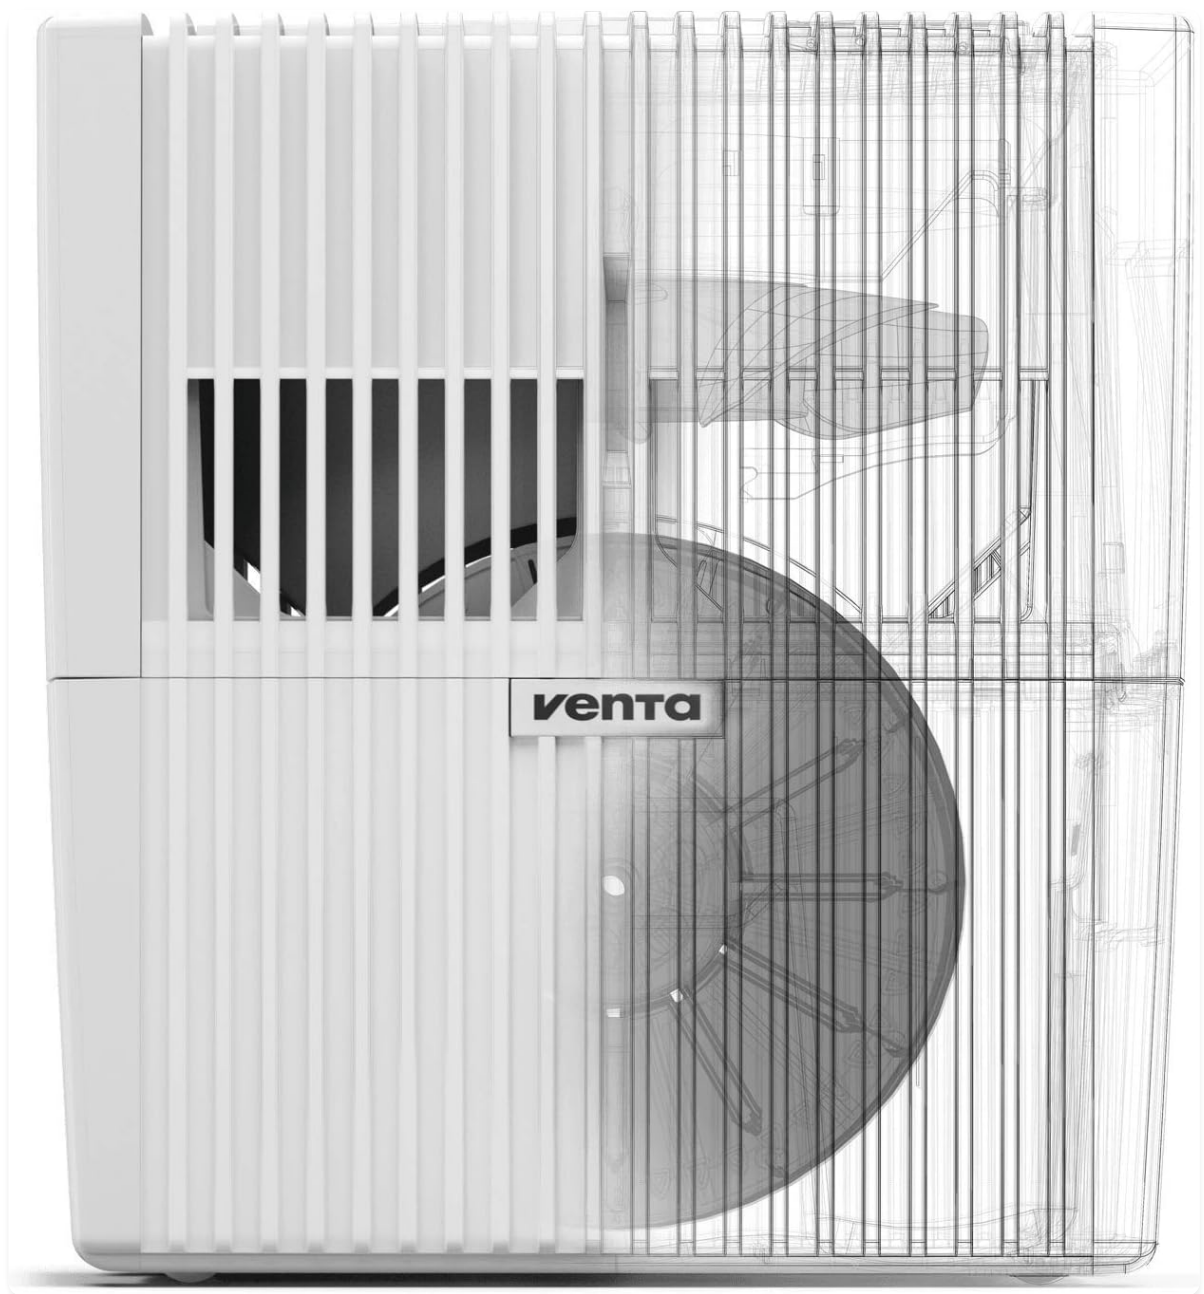

Figure 2: Internal components of the Venta LW25, showing the fan unit and disk stack.

2. **Place the Unit:** Position the humidifier on a firm, level surface in the desired room. Ensure adequate space around the unit for optimal air circulation.

Figure 3: Ensure proper air circulation around the unit.

3. **Fill the Water Reservoir:** Separate the upper housing from the lower water reservoir. Fill the reservoir with clean tap water up to the maximum fill line. Add the recommended Venta Water Treatment Additive as per its instructions.

Figure 4: The Venta LW25 with the top section lifted, revealing the water reservoir and disk stack.

4. **Reassemble and Connect:** Carefully place the upper housing back onto the water reservoir, ensuring it is securely seated. Plug the power cord into a suitable electrical outlet.

4. OPERATING INSTRUCTIONS

The Venta LW25 Humidifier features simple controls for power and fan speed.

Your browser does not support the video tag.

Video 1: An overview of the Venta Original Humidifiers, demonstrating their function and benefits.

1. **Power On/Off:** Press the power button (usually indicated by a circle with a vertical line) to turn the unit on or off.
2. **Adjust Fan Speed:** Use the speed control buttons (often indicated by arrows or numbered settings) to select the desired fan speed. Higher speeds will humidify the air more quickly. The LW25 typically offers multiple speed settings (e.g., 1, 2, 3).
3. **Automatic Shut-off:** The unit is equipped with an automatic shut-off feature that activates when water levels are too low, preventing damage.

5. MAINTENANCE

Regular cleaning is essential for optimal performance and hygiene. The Venta LW25 is designed for easy maintenance without the need for filters.

- 1. **Daily/Weekly Water Change:** Change the water in the reservoir regularly (daily or every few days, depending on usage and water quality).

Figure 5: Regular water changes contribute to effective humidification.

- 2. **Bi-weekly Cleaning:**
 - Unplug the unit and separate the upper housing from the lower reservoir.
 - Remove the disk stack.
 - Empty any remaining water and rinse the reservoir and disk stack thoroughly with warm water.
 - Wipe down the interior of the reservoir to remove any mineral deposits or residue. A soft brush can be used for the disk stack.
 - Reassemble the unit, refill with fresh tap water, and add the Venta Water Treatment Additive.
- 3. **Annual Deep Cleaning:** For stubborn mineral deposits, a deeper cleaning may be required using a descaling solution or a mixture of vinegar and water. Follow the manufacturer's specific instructions for deep cleaning.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not turn on.	No power, incorrect assembly, low water level.	Check power connection, ensure top housing is correctly seated, refill water reservoir.
No humidification or low output.	Low water level, dirty disk stack/reservoir, fan speed too low.	Refill water, clean unit thoroughly, increase fan speed.
Unpleasant odor.	Stagnant water, dirty reservoir/disk stack.	Change water more frequently, perform thorough cleaning.
Unit is noisy.	Unit not level, foreign object in fan, motor issue.	Ensure unit is on a flat surface, check for obstructions, contact support if noise persists.

7. SPECIFICATIONS

Brand: VENTA
Model Name: LW25 Original
Operation Mode: Evaporative
Special Feature: Filter-free operation
Color: White

Coverage Area: Up to 430 Square Feet

Product Dimensions: 12"D x 12"W x 13"H

Item Weight: 8.5 Pounds

Wattage: 8 watts

Included Components: Humidifier, Water Treatment Additive

UPC: 826708594197, 801505255366, 696333119214, 778295668402
