# Duravit D1906300 Starck 3 One Piece Toilet Set Instruction Manual

**MODEL: D1906300**

Brand: Duravit

## Introduction

This manual provides essential instructions for the installation, operation, and maintenance of your Duravit D1906300 Starck 3 One Piece Toilet Set. Please read this manual thoroughly before installation and use to ensure proper function and longevity of your product. Keep this manual for future reference.

## Safety Information

- Always turn off the water supply before beginning any installation or maintenance.
- Wear appropriate personal protective equipment (PPE) such as gloves and eye protection during installation.
- Handle ceramic components with care to prevent chipping or breakage.
- Ensure all connections are secure and watertight to prevent leaks.
- If you are unsure about any step, consult a qualified plumber.

## Package Contents

Verify that all components are present and undamaged before proceeding with installation. Your package should contain:

- Duravit D1906300 Starck 3 One Piece Toilet (Alpine White)
- Toilet Seat (Plastic)
- Installation hardware (bolts, washers, nuts)
- Wax ring with flange
- Instruction Manual

*Note: Additional tools and materials (e.g., adjustable wrench, screwdriver, sealant) are required for*

installation and are not included.

## Setup and Installation

The Duravit D1906300 is designed for floor-mounted installation. Professional installation is recommended to ensure proper function and compliance with local plumbing codes.

- 1. Prepare the Area:** Ensure the floor flange is properly installed and clear of debris. Turn off the water supply to the toilet area.
- 2. Install Wax Ring:** Place the wax ring onto the floor flange or directly onto the toilet's waste outlet.
- 3. Position the Toilet:** Carefully lift and lower the one-piece toilet onto the floor flange, aligning the bolts with the holes in the toilet base. Press down firmly to compress the wax ring.
- 4. Secure the Toilet:** Install the washers and nuts onto the flange bolts. Tighten them evenly and alternately until the toilet is secure, but do not overtighten, as this can crack the ceramic.
- 5. Connect Water Supply:** Connect the water supply line to the toilet's fill valve. Ensure a watertight seal.
- 6. Install Toilet Seat:** Attach the plastic toilet seat according to its specific instructions.
- 7. Test for Leaks:** Turn on the water supply slowly and allow the tank to fill. Flush the toilet several times and inspect all connections for leaks.

## Operating Instructions

The Duravit D1906300 Starck 3 One Piece Toilet operates with a standard flushing mechanism. To flush, simply press or lift the flush lever/button located on the toilet tank. The one-piece design integrates the tank and bowl into a seamless unit, simplifying cleaning and offering a sleek aesthetic.

## Maintenance and Cleaning

Regular cleaning and maintenance will ensure the longevity and hygienic performance of your toilet.

- Exterior Cleaning:** Use a soft cloth and mild, non-abrasive cleaner to wipe down the ceramic surfaces. Avoid harsh chemicals or abrasive scrubbers that can damage the finish.

- **Toilet Seat Cleaning:** The plastic toilet seat should be cleaned with a mild soap and water solution. Do not use strong chemical cleaners, as they can degrade the plastic.
- **Bowl Cleaning:** Use a toilet brush and a toilet bowl cleaner designed for ceramic fixtures. Follow the cleaner's instructions.
- **Internal Components:** Periodically check the fill valve and flush valve for wear. If issues arise, replacement parts are typically available from Duravit or plumbing suppliers.
- **Hard Water Stains:** For hard water stains, use a cleaner specifically designed to remove mineral deposits, following product instructions carefully.

## Troubleshooting

---

Below are common issues and their potential solutions. For more complex problems, contact a qualified plumber.

- **Toilet Leaks:**

- Check water supply line connections for tightness.
- Inspect the wax ring for proper seal.
- Examine the tank's internal components (flapper, fill valve) for damage or misalignment.

- **Weak Flush:**

- Ensure the water level in the tank is at the recommended mark.
- Check for obstructions in the rim jets under the bowl rim.
- Verify the flapper is opening fully and staying open long enough.

- **Toilet Runs Continuously:**

- Adjust the float to ensure the water level is not too high.
- Inspect the flapper for proper seating and wear.
- Check the fill valve for proper operation.

## Specifications

---

Feature	Detail
Brand	Duravit
Model Number	D1906300
Type	One-Piece Toilet
Color	Alpine White
Installation Type	Floor Mounted
Shape	Oval
