Moen 52008

Moen 52008 Commercial Lever Handle Instruction Manual

1. PRODUCT OVERVIEW

This manual provides essential information for the installation, operation, and maintenance of your Moen 52008 Commercial Lever Handle. This handle is designed as a replacement commercial service kit for the 8200 Series, specifically for cold water applications, and features a chrome finish.

Key Features:

- Authentic Moen replacement part.
- Designed for hassle-free installation.
- Ideal for repairing problematic plumbing fixtures without the need to replace them.
- Backed by Moen's One-Year Limited Warranty.

2. INSTALLATION GUIDELINES

This section provides important tips for replacing your old faucet handle. Proper preparation is crucial for a smooth installation process.

Tips for Removal of Old Faucet Handle:

- **Always turn the water supply OFF** before attempting to remove the existing faucet handle or disassembling any part of the valve. This prevents water leaks and potential damage.
- Open the faucet handle to relieve any residual water pressure in the lines. Ensure that the water supply is completely shut off before proceeding.
- Carefully remove the old handle, noting the orientation and any small components.

Once the old handle is removed, follow the specific instructions provided with your faucet's valve assembly for installing the new Moen 52008 lever handle. Ensure all connections are secure and hand-tightened before turning the water supply back on.

3. OPERATION

The Moen 52008 Commercial Lever Handle is designed for straightforward operation. As a cold water handle, it controls the flow of cold water to your faucet. Simply lift or turn the lever to initiate water flow and return it to the closed position to stop the flow.

4. CARE AND MAINTENANCE

Proper care will help preserve the finish and functionality of your Moen faucet handle for years to come.

Care Instructions:

- To preserve the finish on the metallic parts of your Moen faucet, apply non-abrasive wax, such as car wax, periodically.

- Any cleaners used should be rinsed off immediately with clean water to prevent damage to the finish.
- Mild abrasives are acceptable for Platinum and LifeShine® finishes, but for chrome, use only non-abrasive cleaners. Avoid harsh chemicals or abrasive scrubbing pads.
- Regularly wipe the handle with a soft, damp cloth to remove water spots and grime.

5. TROUBLESHOOTING

As a mechanical component, the lever handle itself rarely requires extensive troubleshooting. Most issues related to water flow or leaks are typically associated with the faucet's valve assembly rather than the handle.

Common Considerations:

- **Loose Handle:** If the handle feels loose, check the set screw (if applicable) that secures it to the valve stem and tighten it gently.
- **Stiff Operation:** If the handle is stiff, it may indicate an issue with the internal cartridge of the faucet. Consult your faucet's main instruction manual or a qualified plumber.
- **No Water Flow:** Ensure the main water supply is turned on. If still no flow, the issue is likely with the faucet's internal components or water lines, not the handle itself.

For complex issues, it is recommended to contact Moen customer support or a professional plumber.

6. PRODUCT SPECIFICATIONS

Specification	Detail
Brand	Moen
Model Number	52008
Part Number	52008
Material	Brass, Zinc Alloy (Metal Type), Alloy Steel (Handle Material)
Color	Chrome
Exterior Finish	Chrome
Product Dimensions	2"L x 3"W
Item Weight	0.01 Ounces
Specific Uses For Product	Faucet
Special Feature	Easy to Install
Included Components	Lever Handle
Handle Attachment Mechanism	Screw
Hand Orientation	Ambidextrous

Specification	Detail
Unit Count	1.0 Count
Number of Items	1
Size	Small
UPC	026508160572
Date First Available	February 27, 2009

7. WARRANTY AND SUPPORT

The Moen 52008 Commercial Lever Handle is backed by Moen's One-Year Limited Warranty. This warranty covers defects in material and manufacturing for a period of one year from the date of purchase.

For warranty claims, technical assistance, or to purchase replacement parts, please visit the official Moen website or contact Moen customer service directly. Keep your proof of purchase for warranty validation.

You can find more information and support resources on the [Moen Official Website](#).
