

HON H5715

HON Volt Mesh Back Task Stool - Upholstered Adjustable Office Stool (H5715) Instruction Manual

Model: H5715

Brand: HON

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your HON Volt Mesh Back Task Stool. Please read thoroughly before use to ensure proper function and longevity of your product.

Key Features:

- **Comfort, Style, and Value:** Features a breathable mesh-back and a geometric design.
- **Sit-to-Stand Functionality:** Extended height adjustment for comfortable use at various desk heights.
- **Ergonomic Adjustments:** Pneumatic height adjustment with optional height-adjustable arms for upper body support.
- **Mobility:** Five-star base with durable wheels for easy movement.
- **Durable Mesh Back:** Constructed with high-quality materials for lasting performance.

SAFETY WARNINGS

- Always follow assembly instructions carefully.
- Keep away from heat sources and sharp objects.
- Do not use if damaged.
- For height-adjustable arms, ensure they are properly assembled and locked before use.

SETUP AND ASSEMBLY

The HON Volt Task Stool requires minimal assembly. Follow the included instructions for a quick and straightforward setup. All necessary tools are provided.

Video 1: Assembly and feature overview of the HON Volt Task Stool. This video demonstrates the quick assembly process and highlights key features such as height adjustment and mesh back support.

OPERATING INSTRUCTIONS

Height Adjustment:

To adjust the seat height, locate the pneumatic lever beneath the seat on the right side. While seated, pull the lever up to lower the seat. To raise the seat, stand up and pull the lever up. Release the lever at your desired height.

Foot Ring Adjustment:

The foot ring can be adjusted to accommodate different user heights. Loosen the screw on the foot ring's collar, slide the ring to your preferred height, and then tighten the screw securely.

Figure 2: Close-up of the adjustable foot ring and pneumatic lever for height adjustment.

Backrest Tilt:

The backrest offers a tilt function for enhanced comfort. Use the tension knob located under the seat to adjust the resistance of the tilt. Turn clockwise for more resistance, counter-clockwise for less. Some models may also feature a tilt lock lever.

MAINTENANCE

Cleaning:

Wipe clean with a damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the material. For the mesh back, a soft brush can be used to remove dust and debris.

General Care:

- Regularly check all screws and bolts to ensure they are tight.
- Avoid exposing the chair to direct sunlight for prolonged periods to prevent material degradation.
- Do not overload the chair beyond its specified weight capacity.

TROUBLESHOOTING

Chair Sinks or Does Not Hold Height:

This typically indicates an issue with the pneumatic gas lift cylinder. Contact customer support for replacement options if the chair is still under warranty.

Wheels Not Rolling Smoothly:

Check for debris (hair, lint, etc.) caught in the casters. Clean thoroughly. If the issue persists, the casters may need replacement.

Backrest Feels Loose:

Ensure all bolts connecting the backrest to the seat mechanism are securely tightened. Adjust the tilt tension knob for desired resistance.

SPECIFICATIONS

Feature	Detail
Brand	HON
Model Name	HON5715SB11T
Model Number	H5715.SB11.T
Color	Black Leather
Material	Leather, Foam, Cotton, Metal
Product Dimensions (D x W x H)	28"D x 26.75"W x 49.88"H
