## Energizer UNH15BP-4

# Energizer Recharge Universal AA Rechargeable Batteries (4-Count)

Model: UNH15BP-4

## 1. INTRODUCTION

Thank you for choosing Energizer Recharge Universal AA rechargeable batteries. These batteries are designed for repeated use, offering a sustainable power solution for various electronic devices. This manual provides essential information for the proper use, care, and maintenance of your Energizer rechargeable batteries.

## 2. PRODUCT OVERVIEW

Energizer Recharge Universal AA batteries are engineered for reliability and longevity. Key features include:

- **Rechargeable Design:** Can be charged up to 1,000 times, reducing waste and long-term costs.
- **Long-Lasting Power:** Provides consistent power for high-drain devices such as cameras, wireless gaming components, and toys.
- **Extended Storage Life:** Holds power for up to 12 months in storage.
- **Sustainable Composition:** Made with 15% recycled materials.
- **Leak Protection:** Designed to prevent leaks, protecting your devices.

### 3. SETUP AND INITIAL USE

Your Energizer Recharge Universal AA batteries come pre-charged and are ready for immediate use. However, for optimal performance and longevity, it is recommended to fully charge them before the first use with a compatible Energizer Recharge charger (sold separately).

#### 3.1. Charging the Batteries

1. **Insert Batteries:** Place the Energizer Recharge AA batteries into a compatible Energizer Recharge charger, ensuring correct polarity (+ and - ends).
2. **Connect Charger:** Plug the charger into a standard wall outlet.
3. **Monitor Charge Status:** Refer to your charger's indicator lights. Typically, a red light indicates charging, and a green light indicates a full charge. Some chargers may have additional indicators for battery health or intermediate charge levels.
4. **Remove When Charged:** Once charging is complete, remove the batteries from the charger.

# WON'T STOP

## 4. OPERATING INSTRUCTIONS

To use your Energizer Recharge Universal AA batteries:

1. **Identify Device Requirements:** Ensure your device requires AA-sized batteries.
2. **Insert Correctly:** Open the battery compartment of your device and insert the batteries according to the polarity markings (+ and -).
3. **Close Compartment:** Securely close the battery compartment.
4. **Power On:** Turn on your device.

These batteries are suitable for a wide range of everyday devices, providing reliable, reusable power.

## 5. MAINTENANCE AND CARE

Proper maintenance extends the life and performance of your rechargeable batteries:

- **Regular Charging:** Recharge batteries when they are depleted. Avoid completely draining them repeatedly, as this can shorten their overall lifespan.
- **Avoid Overcharging:** While modern chargers often have protection, it's best to remove batteries once fully charged.
- **Storage:** Store unused batteries in a cool, dry place at room temperature. For long-term storage, it is advisable to store them with a partial charge (around 50%).
- **Cleaning:** Keep battery contacts clean. Use a dry cloth to wipe away any dirt or corrosion.
- **Disposal:** Do not dispose of rechargeable batteries in household waste. Recycle them at designated battery recycling centers.

## 6. TROUBLESHOOTING

If you encounter issues with your Energizer Recharge batteries, consider the following:

- **Batteries Not Charging:**

- Ensure the charger is properly plugged into a working outlet.
- Verify batteries are inserted with correct polarity.
- Check for dirt or corrosion on battery and charger contacts; clean if necessary.
- Some chargers indicate a 'bad battery' with a specific light pattern or sound. If this occurs, the battery may have reached the end of its life or be damaged.

- **Short Operating Time:**

- Ensure batteries are fully charged before use.
- Battery capacity naturally diminishes over many charge cycles. If operating time is consistently short, batteries may need replacement.
- High-drain devices consume power more quickly.

- **Device Not Powering On:**

- Confirm batteries are fully charged.
- Check device's battery compartment for proper insertion and clean contacts.
- Test with a different set of known-good batteries to rule out a device issue.

---

## 7. SPECIFICATIONS

Feature	Detail
Battery Type	AA (Nickel-Metal Hydride - NiMH)
Model Number	UNH15BP-4
Capacity	2000 Milliampere Hour (mAh)
Recharge Cycles	Up to 1,000
Battery Life	Up to 5 years (under typical usage)
Storage Retention	Holds charge up to 12 months in storage
Recycled Materials	Made with 15% recycled materials
Product Dimensions	0.61 x 3.69 x 4.51 inches
Item Weight	0.32 ounces

---

## 8. SAFETY INFORMATION

Please observe the following safety precautions:

- Use only with compatible NiMH chargers.
- Do not mix old and new batteries, or different types of batteries.

- Do not dispose of batteries in fire; they may explode or leak.
  - Do not open, crush, puncture, or short-circuit batteries.
  - Keep batteries out of reach of small children. If swallowed, seek medical attention immediately.
  - If battery fluid comes into contact with skin or eyes, flush with water immediately and seek medical attention.
- 

## **9. WARRANTY AND SUPPORT**

For warranty information, product support, or to contact customer service, please refer to the official Energizer website or the contact details provided on your product packaging. Keep your purchase receipt as proof of purchase.
