Bajaj GX 10

Bajaj GX 10 600W Mixer Grinder Instruction Manual

Introduction

This instruction manual provides essential information for the safe and effective operation, maintenance, and care of your Bajaj GX 10 600W Mixer Grinder. Please read this manual thoroughly before first use and retain it for future reference.

Safety Information

Observe the following safety precautions to prevent injury or damage to the appliance:

- Always read all instructions before operating the appliance.
- Do not immerse the motor unit in water or any other liquid. Clean with a damp cloth only.
- Ensure the jar is properly locked onto the motor unit before switching on.
- Always ensure the lid is securely fastened before operation.
- Do not operate the mixer grinder empty.
- Unplug the appliance from the power outlet when not in use, before cleaning, or when changing accessories.
- Keep hands and utensils out of the jar while operating to reduce the risk of severe injury to persons or damage to the mixer grinder.
- This appliance is equipped with a motor overload protector. If the motor stops due to overload, switch off the appliance, unplug it, and allow it to cool down before restarting.
- Do not use the appliance if the cord, plug, or any other part is damaged.
- Keep the appliance out of reach of children.

Product Components

The Bajaj GX 10 Mixer Grinder package includes the following components:

- Bajaj GX Mixer Grinder Motor Unit
- 1.5 Litre Stainless Steel Liquidising Jar with Dome Lid and Clips
- 1 Litre Stainless Steel Dry/Wet Grinding Jar with Dome Lid and Clips
- 0.3 Litre Stainless Steel Chutney Jar
- Multi-functional Blade System (6 blades for various tasks)

- Spatula for easy removal of blades and mixing batter
- Warranty Card
- User Manual

Setup

Follow these steps to set up your mixer grinder:

1. Unpack all components and remove any packaging materials.
2. Place the motor unit on a clean, dry, and stable surface.
3. Select the appropriate jar for your task.

4. Place the ingredients into the jar. Do not overfill.
5. Secure the lid onto the jar. Ensure the clips are engaged if present.
6. Place the assembled jar onto the motor unit, aligning the locking grooves. Turn clockwise until it locks securely into place.
7. Plug the power cord into a suitable 230V AC power outlet.

Operating Instructions

The Bajaj GX 10 features a 600W motor with 3-speed settings and an incher facility for precise control.

General Operation:

1. After setup, turn the speed selector knob to the desired speed (1, 2, or 3).
2. For short bursts or to clear blockages, use the 'Incher' (pulse) facility by turning the knob to the 'P' position and releasing.
3. Do not operate continuously for more than 5 minutes. Allow a cooling period before resuming.
4. After use, turn the knob to 'OFF' and unplug the appliance.

Specific Applications:

- **Liquidising:** Use the 1.5 Litre stainless steel jar for making juices, milkshakes, and purees.
- **Wet/Dry Grinding:** Use the 1 Litre stainless steel jar for grinding spices, lentils, and preparing batters.
- **Chutney Making:** Use the 0.3 Litre stainless steel chutney jar for small quantities and fine grinding of chutneys and pastes.
- The multi-functional blade system is suitable for mixing, wet/dry grinding, liquidising, whipping, chutney making, and mincing.

Maintenance and Cleaning

Regular cleaning and maintenance ensure the longevity and performance of your mixer grinder.

1. Always unplug the appliance before cleaning.
2. **Motor Unit:** Wipe the motor unit with a soft, damp cloth. Do not use abrasive cleaners or immerse it in water.
3. **Jars and Lids:** Wash the stainless steel jars, lids, and blades with warm soapy water immediately after use. Rinse thoroughly and dry.
4. **Blades:** Use the provided spatula to carefully remove blades for thorough cleaning if necessary. Handle blades with extreme caution as they are sharp.
5. Ensure all parts are completely dry before storing.
6. Store the mixer grinder and its accessories in a clean, dry place.

Troubleshooting

If you encounter issues with your mixer grinder, refer to the following common problems and solutions:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Mixer grinder does not start.	Not plugged in; power outage; jar not locked correctly; motor overload.	Check power connection; ensure jar is locked; reset motor overload protector (if tripped) after cooling.
Unusual noise during operation.	Jar not seated properly; ingredients too hard or too much.	Ensure jar is locked; reduce quantity or add liquid; check for foreign objects.
Motor stops during operation.	Overload due to excessive load or continuous operation.	Switch off, unplug, and allow the motor to cool for 15-20 minutes. Reduce ingredients before restarting.
Leakage from jar.	Lid not secured; rubber gasket not in place or damaged; jar overfilled.	Ensure lid is tightly closed; check and reposition gasket; do not overfill the jar.

If the problem persists after attempting these solutions, please contact customer support.

Specifications
