Pureit WPUV100

Pureit Marvella G2 UV Water Purifier User Manual

MODEL: WPUV100

Brand: Pureit

INTRODUCTION

This manual provides essential information for the proper installation, operation, and maintenance of your Pureit Marvella G2 UV 4 Stage Water Purifier. This appliance is designed to provide 100% UV-sterilized water by killing 99.9% of bacteria, viruses, and cysts. It is important to note that this purifier is **not suitable for tanker or borewell water**. Please read this manual thoroughly before using the product to ensure optimal performance and safety.

KEY FEATURES

- **100% UV Sterilization:** Kills 99.9% of bacteria, viruses, and cysts, providing safe drinking water.
- **4-Stage Purification:** Ensures comprehensive water treatment.
- **Large Storage Capacity:** Features a 4-liter storage tank to ensure a continuous supply of purified water.
- **Mineral Retention:** Designed to retain essential minerals such as Calcium and Magnesium.
- **Long Filter Life:** Provides 6000 liters of purified water, offering extended usage compared to standard UV purifiers.
- **Smartsense Indicators:** Alerts users 15 days prior to filter expiry and suspends water dispensing if the filter is not replaced, ensuring consistent water quality.

- **5-Year UV Lamp Warranty:** Provides assurance for the longevity of the UV purification component.
- **Food-Safe Materials:** Constructed with food-safe, non-toxic engineering grade plastic.

SETUP AND INSTALLATION

The Pureit Marvella G2 UV Water Purifier is designed for both table-top and wall-mountable installation. Professional installation is recommended to ensure correct setup and optimal performance.

Included Components:

- Water purifier unit

- Installation Kit
- External Sediment Filter (ESF)
- Warranty Card

Additional Components (May be required):

Depending on your water pressure conditions, a booster pump, pressure reducing valve, or an iron cartridge may be necessary. These items are not included in the standard package and should be purchased at the time of installation if required. Consult with your installer for assessment.

OPERATING INSTRUCTIONS

Once installed, the Pureit Marvella G2 UV Water Purifier operates automatically to provide purified water. Follow these guidelines for proper operation:

1. **Power On:** Ensure the purifier is connected to a stable power supply (110-240 Va.c. 50 Hz). The power indicator light will illuminate.
2. **Water Flow:** The purifier will begin the 4-stage purification process when water flows into the system.
3. **Dispensing Water:** Use the tap provided on the unit to dispense purified water from the 4-liter storage tank.
4. **Smartsense Indicators:** Pay attention to the Smartsense indicators on the front panel. These indicators provide crucial information regarding the filter status.

MAINTENANCE

Regular maintenance ensures the longevity and efficiency of your water purifier. Adhere to the following maintenance guidelines:

- **Filter Replacement:** The Smartsense indicators will alert you approximately 15 days before the filter reaches its expiry. It is crucial to replace the filter promptly when indicated. The purifier will suspend water dispensing if the filter is not changed, preventing the consumption of unfiltered water. The filter has a life of 6000 liters.
- **UV Lamp:** The UV lamp is a critical component for sterilization. It comes with a 5-year warranty. If you suspect any issue with the UV lamp, contact customer support.
- **Cleaning:** Periodically wipe the exterior of the purifier with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Professional Servicing:** For any internal cleaning or component replacement beyond filter changes, it is recommended to contact authorized service personnel.

TROUBLESHOOTING

This section addresses common issues you might encounter with your Pureit Marvella G2 UV Water Purifier.

- **No Water Dispensing:**
 - Check if the power supply is connected and the power indicator is on.
 - Verify if the Smartsense indicator for filter expiry is active. If so, the filter needs replacement.
 - Ensure there is adequate input water supply to the purifier.
- **Indicator Lights Not Working:**
 - Check the power connection.
 - If the issue persists, contact customer support.
- **Unusual Noise:**
 - Minor operational sounds are normal. If you hear loud or unusual noises, disconnect power and contact customer support.

For any issues not covered here or if troubleshooting steps do not resolve the problem, please contact Pureit customer support.

SPECIFICATIONS

Specification	Detail
Brand	Pureit
Model Name	UV Water Purifier
Item Model Number	WPUV100
Special Feature	UV Purification, 1-199ppm TDS Support
Installation Type	Wall Mount / Table Top
Power Source	Electric
Power Consumption	24 watts
Item Weight	4.57 kg (4570 Grams)
Product Dimensions (LxWxH)	32.1 x 47.2 x 26 Centimeters
Storage Capacity	4 litres
Input Water Temperature	10°C - 40°C
Supported Water TDS Level Max	199 PPM
Material Tank Type	Food safe, non-toxic engineering grade plastic

WARRANTY AND SUPPORT

Your Pureit Marvella G2 UV Water Purifier comes with a comprehensive warranty and dedicated support services.

- **UV Lamp Warranty:** A 5-year warranty is provided on the UV lamp, ensuring its performance and durability.
- **Warranty Card:** Please refer to the included warranty card for detailed terms and conditions of your product warranty.
