### Slamp FAR14SOS0001N\_000

# Faretto Suspension Light

## USER MANUAL

Brand: Slamp | Model: FAR14SOS0001N\_000

### 1. Introduction

The Faretto Suspension Light, designed by Nigel Coates and made by Slamp, combines geometric shapes with innovative materials to create a light fixture with a highly futuristic silhouette. Suspended by a single wire, the shade of this modern pendant light is made from polycarbonate and features a cone-like shade overlaid with circle cutouts. Housed within the shade is a singular light source, which when illuminated, provides direct lighting ideal for use above a dining room table or desk.

## 2. Setup and Installation

**Important:** Installation of this light fixture requires electrical wiring. It is highly recommended that installation be performed by a qualified electrician to ensure safety and proper functionality.

1. **Unpacking:** Carefully remove all components from the packaging. Inspect for any damage during transit. Retain packaging for future transport or storage.
2. **Component Check:** Verify all parts listed in the packing contents are present.
3. **Power Disconnection:** Before beginning installation, ensure the main power supply to the installation area is turned off at the circuit breaker.

4. **Mounting:** Securely attach the mounting bracket to the ceiling junction box according to local electrical codes.
5. **Wiring:** Connect the fixture's wires to the corresponding household wires (live, neutral, ground) following the provided wiring diagram. Ensure all connections are secure and insulated.
6. **Fixture Attachment:** Carefully attach the Faretto Suspension Light to the mounted bracket, ensuring it is securely fastened.
7. **Bulb Installation:** Install the incandescent light bulb (not included) into the fixture's socket.
8. **Power Restoration:** Once installation is complete and all connections are secure, restore power at the circuit breaker.

### 3. Operation

The Faretto Suspension Light is designed for simple operation. It can be controlled via an app or a remote control, as indicated by its specifications.

- **Power On/Off:** Use the wall switch connected to the fixture, or the designated button on your remote control or within the control app, to turn the light on or off.
- **App/Remote Control:** For advanced features such as dimming (if supported by your bulb and wiring) or scheduling, refer to the specific instructions provided with your app or remote control device. Ensure the light fixture is properly paired with your control method.

### 4. Maintenance and Care

Regular cleaning and proper care will ensure the longevity and aesthetic appeal of your Faretto Suspension Light.

- **Cleaning:** To clean the polycarbonate shade, gently wipe with a soft, dry, or slightly damp cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the material.
- **Bulb Replacement:** Ensure the power is turned off at the circuit breaker before attempting to replace the incandescent bulb. Allow the bulb to cool completely before handling. Replace with a bulb of the same type and wattage as specified for the fixture.
- **Inspection:** Periodically check the suspension wire and electrical connections for any signs of wear or damage. If any issues are observed, consult a qualified electrician.

### 5. Troubleshooting

If you encounter issues with your Faretto Suspension Light, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture. Faulty bulb. Loose wiring connection.	Check circuit breaker. Replace bulb. Consult an electrician to check wiring.
Light flickers.	Loose bulb. Incompatible dimmer switch. Faulty wiring.	Tighten bulb. Ensure dimmer is compatible with incandescent bulbs. Consult an electrician.

Problem	Possible Cause	Solution
Remote/App control not working.	Batteries dead (remote). Not paired correctly. App issue.	Replace batteries. Refer to remote/app manual for pairing instructions. Restart app or device.

## 6. Specifications

Detailed technical specifications for the Faretto Suspension Light:

Attribute	Value
Brand	Slamp
Model Number	FAR14SOS0001N_000
ASIN	B009PTEXB4
Color	black white
Material	Polycarbonate
Style	Modern
Light fixture form	Pendant
Room Type	Dining Room
Power Source	Corded Electric
Control Method	App
Light Source Type	Incandescent
Shade Material	Polycarbonate
Number of Light Sources	1
Voltage	120 Volts
Embellishment	Crystal
Item Weight	6.38 pounds (2.9 Kilograms)
Controller Type	Remote Control
Unit Count	1.0 Count
Mounting Type	Pendant Light
Fixture Type	Non Removable
Assembly Required	Yes
Manufacturer	SLAMP
Global Trade Identification Number	08024727040233
Product Dimensions	15 x 15 x 12 inches

Attribute	Value
-----------	-------

## 7. Warranty Information

Slamp products are manufactured to high quality standards. This product is covered by the manufacturer's limited warranty against defects in materials and workmanship. The specific terms and duration of the warranty may vary. Please retain your proof of purchase for warranty claims. For detailed warranty information, refer to the documentation included with your purchase or visit the official Slamp website.

## 8. Customer Support

If you require further assistance, have questions not covered in this manual, or need to report a defect, please contact:

- **Slamp Official Website:** Visit the official Slamp website for product information, FAQs, and contact details.
- **Authorized Retailer/Seller:** Contact the retailer or seller from whom you purchased the Faretto Suspension Light for support and warranty claims.

Please have your product model number (FAR14SOS0001N\_000) and proof of purchase ready when contacting support.
