VIVO STAND-V002

VIVO Dual Monitor Desk Mount Instruction Manual

Model: STAND-V002 | Brand: VIVO

1. Product Overview

The VIVO Dual Monitor Desk Mount (Model STAND-V002) is a heavy-duty, fully adjustable steel stand designed to optimize your workspace. It accommodates two computer screens from 13 to 30 inches, each weighing up to 22 lbs, and supports VESA 75x75mm or 100x100mm mounting patterns. This mount helps free up valuable desk space and provides ergonomic viewing angles for enhanced productivity.

Key Features

- **Fits 13" to 30" Screens:** Dual monitor mount fitting two screens 13” to 30” in size and up to 22 lbs in weight each with VESA 75x75mm or 100x100mm backside mounting holes.
- **Articulation & Height Adjustment:** Adjustable arm offers +90° to -90° tilt, 180° swivel, 360° rotation, and height adjustment along the center pole. Monitors can be placed in portrait or landscape orientation.
- **Heavy Duty C-Clamp:** Mounts to the back of your desk (up to 3.25” thick) via a heavy-duty C-clamp or optional grommet mount.
- **Easy Installation:** Mounting your monitors is a simple process with detachable VESA bracket plates. Hardware and easy-to-follow instructions are provided for assembly.
- **Cable Management:** Cable management clips are provided along the arms and center pole to keep your workspace organized.

2. Setup & Installation

2.1 Package Contents

Before beginning installation, ensure all parts are present and undamaged. Refer to the included parts list in your product packaging for a

complete inventory.

2.2 Mounting Options

The STAND-V002 offers two primary mounting methods: C-Clamp and Grommet Mount.

C-Clamp Installation

The C-clamp method is suitable for desks up to 3.25 inches thick. Secure the C-clamp base to the edge of your desk by tightening the screw until the mount is stable.

Grommet Mount Installation

For desks with a pre-existing grommet hole, the grommet mount provides a secure alternative. Insert the grommet base through the hole and secure it from underneath the desk using the provided hardware.

Figure 2: C-Clamp and Grommet mounting options.

2.3 Attaching Monitors

The VESA bracket plates are detachable for easy monitor attachment. First, secure the VESA plates to the back of your monitors using the appropriate screws (75x75mm or 100x100mm VESA patterns). Once attached, slide the monitors onto the arms of the desk mount until they click securely into place.

Figure 3: Secure mounting arms with VESA plates.

2.4 Cable Management

Utilize the integrated cable management clips along the arms and center pole to route and conceal your monitor cables. This helps maintain a clean and organized workspace, reducing clutter.

3. Operating Instructions

3.1 Adjusting Monitor Position

The VIVO Dual Monitor Desk Mount offers extensive adjustability to achieve optimal viewing angles and ergonomic comfort. Each arm provides independent movement.

- **Tilt:** Adjust the monitor vertically from +90° to -90° to reduce glare and find your preferred angle.
- **Swivel:** Rotate the monitor horizontally up to 180° for easy screen sharing or multi-user viewing.
- **Rotation:** Pivot the monitor 360° to switch between landscape and portrait orientations.
- **Height Adjustment:** Slide the monitor arms up or down the center pole to set the ideal viewing height.

4. Maintenance

To ensure the longevity and optimal performance of your VIVO Dual Monitor Desk Mount, follow these simple maintenance guidelines:

- **Regular Cleaning:** Wipe down the mount with a soft, damp cloth to remove dust and debris. Avoid abrasive cleaners.
- **Check Tightness:** Periodically inspect all screws and connections to ensure they remain tight. Re-tighten if necessary to maintain stability.
- **Lubrication:** Moving parts do not typically require lubrication. If any joints become stiff, contact support for guidance.

5. Troubleshooting

Issue	Possible Cause	Solution

Issue	Possible Cause	Solution
Monitors sag or tilt downward	Joints are not tight enough for monitor weight.	Tighten the adjustment screws on the tilt mechanism. Ensure monitor weight is within specified limits.
Mount is unstable or wobbles	C-clamp or grommet mount is not securely fastened.	Re-tighten the C-clamp or grommet mount screws. Ensure desk thickness is within supported range.
Difficulty adjusting monitor position	Joints are too tight or require adjustment.	Loosen the adjustment screws on the relevant joints slightly. Refer to the installation guide for specific adjustment points.

If you encounter issues not listed here or if the suggested solutions do not resolve the problem, please contact VIVO customer support.

6. Specifications

Attribute	Value
Model Number	STAND-V002
Screen Size Compatibility	13" to 30"
Weight Capacity (per screen)	22 lbs (10 kg)
VESA Compatibility	75x75mm, 100x100mm
