Zadro LEDSV410

Zadro Lighted Makeup Mirror LEDSV410 Instruction Manual

Model: LEDSV410

Introduction Instructions	Safety Information Maintenance	Features Troubleshooting	Setup	Operating Specifications
---	--	--	-----------------------	--

1. INTRODUCTION

This manual provides instructions for the Zadro Lighted Makeup Mirror LEDSV410. This mirror is designed to provide a clear and illuminated reflection for various personal care and makeup application needs. It features dual-sided magnification and LED lighting, with options for both cordless battery operation and AC power.

2. SAFETY INFORMATION

WARNING: Exposure to direct sunlight may cause fire. Use with caution.

Always ensure the mirror is placed on a stable, flat surface to prevent tipping. Keep out of reach of children. Do not immerse the mirror in water or other liquids. Disconnect from power when not in use or during cleaning.

3. PRODUCT FEATURES

- LED lighted mirror for optimal illumination.
- Dual-sided, optical quality glass for clear reflection.
- Features 10x magnification for detailed tasks and 1x magnification for a standard view.
- Cordless, battery-powered design for portability, with an optional A/C Adapter for continuous power.
- Satin Nickel finish for durability and aesthetic appeal.

4. SETUP

4.1 Unpacking and Placement

Carefully remove the mirror from its packaging. Place the mirror on a clean, stable, and flat surface, such as a

vanity or countertop. Ensure there is adequate space around the mirror for comfortable use and rotation.

4.2 Power Options

The Zadro LEDSV410 mirror can be powered in two ways:

- **AC Adapter:** For continuous power, plug the provided AC adapter into the port at the base of the mirror and then into a standard electrical outlet.
- **Battery Operation:** For cordless use, install 4 'C' batteries (not included) into the battery compartment located on the underside of the mirror base. Ensure batteries are inserted with correct polarity.

5. OPERATING INSTRUCTIONS

5.1 Turning On/Off and Adjusting Light

The mirror features an on/off switch and a dimmer control located on the base. Rotate the knob to turn the LED lights on or off, and continue rotating to adjust the brightness to your preferred level.

Image: A hand rotating the control knob on the base of the Zadro mirror to adjust the brightness of the LED lighting.

5.2 Using Magnification

The mirror head is dual-sided and can be rotated 360 degrees. One side provides 1x magnification for a standard, true-to-life reflection, while the other side offers 10x magnification for close-up tasks such as makeup application, tweezing, or detailed skincare routines.

6. MAINTENANCE

6.1 Cleaning

To clean the mirror, ensure it is turned off and unplugged (if using the AC adapter). Wipe the mirror surfaces with a soft, damp cloth. For stubborn spots, a mild glass cleaner can be used. Avoid abrasive cleaners or harsh chemicals that may damage the finish or mirror surface. The satin nickel finish is designed to be anti-fingerprint, making it easier to keep clean.

6.2 Storage

When not in use for extended periods, store the mirror in a cool, dry place. If operating on batteries, remove them to prevent leakage and potential damage to the unit.

7. TROUBLESHOOTING

- **Lights not turning on:**

- If using AC adapter, ensure it is securely plugged into both the mirror and the wall outlet.
- If using batteries, check if the batteries are correctly installed and not depleted. Replace with fresh 'C' batteries if necessary.
- Ensure the on/off switch on the base is in the 'on' position.

- **Lights are dim:**

- Adjust the dimmer knob on the base to increase brightness.
- If using batteries, they may be low. Replace them or switch to AC power.

- **Mirror head is loose:**

- Periodically check the screws on the sides of the mirror head. Gently tighten them if they become loose to maintain stability during rotation.

If you experience any issues not covered here, please refer to the warranty and support information.

8. SPECIFICATIONS

Attribute	Detail
Brand	Zadro
Model Number	LEDSV410
Product Dimensions	18 x 11 x 5.5 inches
Item Weight	4.6 Pounds
Magnification	10x and 1x
Lighting Type	LED
Power Source	C Battery Operated (4 'C' batteries required, not included) or Optional A/C Adapter
Finish	Satin Nickel
Frame Material	Acrylonitrile Butadiene Styrene (ABS)
Shape	Round
UPC	705004420167
