Gewa Violin Case PS350110 4/4 Instruction Manual

Model: PS350110 | Size: 4/4

1. INTRODUCTION

The Gewa Violin Case PS350110 is designed to provide secure and reliable protection for your 4/4 size violin. Constructed with a durable Styrofoam shell and a robust exterior, it features a plush velvet interior to cradle your instrument safely. This manual outlines the proper use, setup, and care of your violin case.

Key Features:

- Styrofoam shell for lightweight yet sturdy protection.
- Screw-attached cover with an integrated music sheet pocket.
- Padded back and sides for enhanced instrument safety.
- Suspension carrying system to minimize impact.
- Two detachable rucksack straps and one shoulder strap for versatile carrying options.
- Dark blue TEX exterior and dark blue velvet interior.

2. SETUP AND INITIAL USE

Before placing your violin into the case, ensure all straps are correctly attached and the case is on a stable, flat surface.

- 1. Attaching Straps:** The case comes with two detachable rucksack straps and one shoulder strap. Locate the D-rings on the back and sides of the case. Attach the metal clips of the straps securely to these D-rings. For backpack style, use the two rucksack straps on the back. For shoulder carry, use one strap on the side D-rings.
- 2. Opening the Case:** Unzip the main zipper completely. Release the latches if present (this model primarily uses zippers and a screw-attached cover).
- 3. Inspecting the Interior:** Before first use, check the velvet interior for any debris or loose particles that could scratch your instrument.

3. OPERATING INSTRUCTIONS

Properly securing your violin and accessories within the case is crucial for their protection during transport.

- 1. Placing the Violin:** Gently place your 4/4 violin into the molded velvet interior. Ensure it sits snugly without force. The suspension system is designed to hold the instrument securely.
- 2. Securing Bows:** The case features dedicated bow holders. Carefully place your bows into these holders and secure them with the rotating clips or Velcro straps provided.
- 3. Accessory Compartments:** Utilize the various compartments for rosin, shoulder rest, and other small accessories. Ensure these items are secure and do not shift during transport.
- 4. Music Sheet Pocket:** The screw-attached cover includes a pocket for music sheets. Place your sheets flat to prevent creasing.
- 5. Closing the Case:** Ensure no items are protruding from the case before closing. Gently lower the lid and zip the main zipper completely. If applicable, secure any latches.

4. MAINTENANCE AND CARE

Regular maintenance will prolong the life of your violin case and ensure continued protection for your instrument.

- **Exterior Cleaning:** Wipe the TEX exterior with a damp cloth to remove dust and dirt. Avoid harsh chemicals or abrasive cleaners.
- **Interior Cleaning:** Gently vacuum the velvet interior with a soft brush attachment to remove dust and rosin residue. Spot clean any stains with a mild fabric cleaner, testing on an inconspicuous area first. Allow to air dry completely before closing the case.
- **Zipper Care:** Periodically check zippers for smooth operation. If they become stiff, apply a small amount of zipper lubricant.
- **Strap Inspection:** Regularly inspect straps and their attachment points for signs of wear or damage. Replace worn straps immediately to prevent accidental drops.
- **Storage:** Store the case in a cool, dry place away from direct sunlight and extreme temperature fluctuations when not in use.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your violin case.

- **Problem:** Zipper is stuck or difficult to move.
Solution: Check for fabric caught in the zipper teeth. Apply a small amount of zipper lubricant (e.g., beeswax or a specialized zipper wax) to the teeth and gently work the zipper back and forth.
- **Problem:** Straps detach unexpectedly.
Solution: Ensure the metal clips are fully closed and securely latched onto the D-rings. Inspect the clips and D-rings for damage or deformation. If damaged, replace the strap or seek professional repair.
- **Problem:** Interior velvet appears flattened or dusty.

Solution: Use a soft brush or a vacuum cleaner with a low-power setting and brush attachment to gently lift the pile and remove dust.

- **Problem:** Case does not close properly.

Solution: Verify that no items inside the case are obstructing the lid or zipper path. Ensure the violin and accessories are correctly seated in their designated areas.

6. SPECIFICATIONS

Detailed specifications for the Gewa Violin Case PS350110 4/4.

Feature	Detail
Model Number	PS350110
Size	4/4 Violin
Exterior Material	TEX Fabric (Dark Blue)
