

OttLite L24554

OttLite L24554 Task Plus Floor Lamp Instruction Manual

Model: L24554

1. INTRODUCTION

The OttLite L24554 Task Plus Floor Lamp is designed to provide high-definition illumination for various tasks and workspaces. Its specialized lighting technology aims to render colors accurately and enhance detail clarity, which can help reduce eye strain. This manual provides essential information for the proper setup, operation, and maintenance of your floor lamp.

Figure 1: OttLite L24554 Task Plus Floor Lamp (Dove Grey) showing adjustable height and base dimensions.

This lamp is suitable for use in various settings, including worktables, reading areas, and craft spaces, offering a wide shade, a stable base, and an adjustable flex neck for precise light positioning.

2. SETUP AND ASSEMBLY

Follow these steps to assemble your OttLite L24554 Task Plus Floor Lamp:

- 1. Unpack Components:** Carefully remove all parts from the packaging. Ensure all components are present: lamp head with flexible neck, main pole, base, and any included hardware (e.g., a bolt for the base).
- 2. Attach Base to Pole:** Place the lamp base on a flat, stable surface. Insert the bottom end of the main pole into the opening on the base. Secure the pole to the base using the provided bolt, tightening it firmly by hand or with a suitable tool if necessary. Avoid over-tightening.
- 3. Connect Lamp Head:** The lamp head with the flexible neck is typically pre-attached to the upper part of the main pole. If not, carefully connect it according to the visual guides or notches.
- 4. Install Bulb:** The lamp may come with the bulb pre-installed. If not, gently screw the E26 base bulb (24-watt maximum) into the lamp socket. Ensure it is seated correctly but do not overtighten.
- 5. Position the Lamp:** Place the assembled lamp in your desired location. Ensure the power cord is not pinched or obstructed.
- 6. Plug In:** Insert the power plug into a standard 120V AC electrical outlet.

Refer to Figure 1 for a visual representation of the lamp's structure and dimensions, including its adjustable

height from 42.5 inches (108 cm) to 49 inches (124.5 cm) and a base size of 12 x 8 inches (30.1 x 20.3 cm).

3. OPERATING INSTRUCTIONS

Operating your OttLite L24554 Task Plus Floor Lamp is straightforward:

- **Power On/Off:** The lamp features a touch switch. Locate the switch on the lamp head or pole (refer to your specific model for exact placement). Tap or press the switch to turn the lamp on or off.
- **Adjusting Light Position:** The lamp is equipped with a flexible neck. Gently bend and position the lamp head to direct the light precisely where needed. The sturdy base ensures stability even when the neck is adjusted.
- **Optimal Use:** For best results, position the lamp so that the light illuminates your workspace directly, minimizing shadows and glare. The natural daylight illumination helps in accurate color rendering and reduces eye strain during prolonged use.

4. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your lamp.

- **Cleaning:** Disconnect the lamp from the power outlet before cleaning. Use a soft, dry cloth to wipe down the lamp's surfaces. For stubborn marks, a slightly damp cloth can be used, followed by a dry cloth. Avoid abrasive cleaners or solvents, as these can damage the finish.
- **Bulb Replacement:**
 - a. Ensure the lamp is unplugged and the bulb has cooled completely.
 - b. Carefully unscrew the old bulb from the socket.
 - c. Screw in a new E26 base, 24-watt maximum bulb. Ensure it is securely seated.
 - d. Dispose of the old bulb according to local regulations.
- **Cord Inspection:** Periodically inspect the power cord for any signs of damage, fraying, or wear. If damage is found, discontinue use and contact customer support.

5. TROUBLESHOOTING

If you encounter issues with your OttLite L24554 Task Plus Floor Lamp, refer to the following common solutions:

Problem	Possible Cause	Solution
Lamp does not turn on.	<ul style="list-style-type: none">• Power cord not fully plugged in.• Bulb is loose or burnt out.• Power outlet is not functioning.	<ul style="list-style-type: none">• Ensure the power cord is securely plugged into both the lamp and the wall outlet.• Check if the bulb is screwed in tightly. Replace the bulb if it is burnt out.• Test the outlet with another device or try a different outlet.

Problem	Possible Cause	Solution
Light flickers or is dim.	<ul style="list-style-type: none"> Loose bulb connection. Bulb nearing end of life. Incompatible bulb. 	<ul style="list-style-type: none"> Tighten the bulb. Replace the bulb with a new one. Ensure you are using an E26 base, 24-watt maximum bulb.
Lamp is unstable.	<ul style="list-style-type: none"> Base not securely attached. Lamp placed on an uneven surface. 	<ul style="list-style-type: none"> Check and tighten the bolt connecting the pole to the base. Move the lamp to a flat, stable surface.
