# Carlisle 4035202 Nylon Mixing Paddle 40-inch Instruction Manual

Model: 4035202

## 1. PRODUCT OVERVIEW

---

The Carlisle 4035202 Mixing Paddle is a durable tool designed for commercial food service and industrial applications. Constructed from high-quality nylon, this 40-inch long paddle is suitable for mixing various ingredients in large containers. Its robust design ensures longevity and resistance to common wear and tear in demanding environments.

## 2. SAFETY INFORMATION

---

Please read and understand all safety instructions before using the mixing paddle. Failure to follow these instructions may result in injury or damage to the product.

- Always inspect the paddle for any signs of damage or wear before each use. Do not use if cracks or significant wear are present.

- Ensure a firm grip on the handle during operation to prevent accidental slips.
- Avoid using the paddle with extremely hot liquids or in environments exceeding its material's temperature limits to prevent deformation or degradation.
- Keep hands and other body parts clear of the mixing area, especially when mixing in deep containers.
- Store the paddle in a clean, dry place away from direct heat sources or harsh chemicals.

### 3. SETUP

---

The Carlisle 4035202 Mixing Paddle requires minimal setup. It is ready for use directly out of its packaging.

1. Remove the mixing paddle from its packaging.
2. Wash the paddle thoroughly with warm, soapy water before its first use to ensure hygiene, especially for food contact applications.
3. Rinse completely and allow to air dry or dry with a clean cloth.

### 4. OPERATING INSTRUCTIONS

---

This mixing paddle is designed for manual stirring and blending of ingredients in large vessels.

1. Select an appropriate container for your mixing task, ensuring it is stable and large enough to accommodate the paddle and ingredients.
2. Hold the paddle firmly by the handle.
3. Insert the paddle into the ingredients, ensuring the blade is fully submerged if possible.
4. Use a steady, controlled motion to stir or blend the contents. Adjust the speed and force as needed for the consistency of the ingredients.
5. Avoid striking the sides or bottom of the container with excessive force, which could damage the container or the paddle.

### 5. MAINTENANCE

---

Proper maintenance will extend the life of your Carlisle mixing paddle.

- **Cleaning:** After each use, wash the paddle immediately with warm water and a mild detergent. Use a brush if necessary to remove stubborn food particles.
- **Rinsing:** Rinse thoroughly with clean water to remove all soap residue.
- **Drying:** Allow the paddle to air dry completely before storage, or dry with a clean, lint-free cloth.
- **Storage:** Store the paddle in a clean, dry area, preferably hanging to prevent bending or damage to the blade. Avoid storing near heat sources or in direct sunlight for prolonged periods.
- **Inspection:** Periodically inspect the paddle for any signs of wear, cracks, or discoloration. Replace if significant damage is observed.

### 6. TROUBLESHOOTING

---

This section addresses common concerns you might encounter with your mixing paddle.

- **Paddle feels too flexible:** The nylon material is designed to offer a balance of rigidity and flexibility. For very thick or dense mixtures, a more rigid tool might be required. Ensure you are not exceeding

the paddle's intended use.

- **Difficulty cleaning:** If food particles are difficult to remove, soak the paddle in warm, soapy water for a few minutes before scrubbing with a non-abrasive brush or sponge.
- **Discoloration:** Certain highly pigmented foods or chemicals may cause slight discoloration over time. This typically does not affect the paddle's performance or safety, but ensure thorough cleaning after each use to minimize this.

## 7. SPECIFICATIONS

<b>Model Number</b>	4035202
<b>Brand</b>	Carlisle
<b>Material</b>	Nylon
<b>Length</b>	40 inches
<b>Product Dimensions</b>	40 x 5 x 1 inches
<b>Item Weight</b>	1 pound
<b>Manufacturer</b>	Carlisle Sanitary Maintenance Products
