Fujifilm Instax Mini 8

Fujifilm Instax Mini 8 Instant Camera User Manual

Your guide to setting up, operating, and maintaining your Fujifilm Instax Mini 8 instant camera.

Introduction

The Fujifilm Instax Mini 8 is a compact and easy-to-use instant camera designed to capture and print memories instantly. This manual provides essential information to help you get started and make the most of your camera. Its slim and light body makes it convenient to carry, and features like automatic exposure measurement and High-Key mode ensure great photos every time.

1. Setup

1.1 Unboxing and Initial Check

Upon opening the box, ensure all components are present:

- Fujifilm Instax Mini 8 Instant Film Camera (Pink)
- 2 AA Batteries
- Wrist Strap
- Limited 1-Year Warranty Information

1.2 Inserting Batteries

1. Open the battery compartment cover located on the side of the camera.
2. Insert two AA-size alkaline batteries, ensuring correct polarity (+/-).
3. Close the battery compartment cover securely.

Image: Back view of the Fujifilm Instax Mini 8 camera, highlighting the battery compartment on the side.

1.3 Loading Film Pack

Use only Fujifilm Instax Mini Instant Film. Each pack contains 10 exposures.

1. Open the film chamber cover on the back of the camera.
2. Align the yellow mark on the film pack with the yellow mark on the camera.
3. Insert the film pack straight into the chamber. Do not press down on the film pack.
4. Close the film chamber cover. The camera will automatically eject the black film cover sheet.
5. The film counter will display "10", indicating 10 photos are available.

Important: *Do not open the film chamber cover until all 10 photos have been taken, as this will expose the film and*

render it unusable.

2. Operating the Camera

2.1 Turning On/Off

- To turn on: Press the button next to the lens. The lens will extend, and the flash charging lamp will light up.
- To turn off: Push the lens back into the camera body.

2.2 Taking a Picture

1. Turn on the camera.
2. Look through the viewfinder to frame your shot.
3. The camera will automatically detect the brightness and light up the recommended exposure setting (e.g., Indoor, Cloudy, Sunny, Very Sunny).
4. Rotate the brightness adjustment dial to the position indicated by the lit lamp.
5. Press the shutter button to take the picture. The photo will eject from the top of the camera.

2.3 Using High-Key Mode

The High-Key mode allows you to take brighter pictures with a softer look, ideal for portraits. To activate:

- Turn on the camera.
- Rotate the brightness adjustment dial to the "High-Key" setting (indicated by a cloud icon with a plus sign).
- Take your picture as usual.

3. Maintenance

3.1 Cleaning the Camera

- Wipe the camera body with a soft, dry cloth.

- For the lens and viewfinder, use a lens cleaning cloth. Avoid using abrasive cleaners or solvents.

3.2 Film Storage

- Store unused film packs in a cool, dry place, away from direct sunlight and high temperatures.
- Once loaded, keep the film chamber closed to protect the film from light.

3.3 Battery Care

- Remove batteries if the camera will not be used for an extended period to prevent leakage.
- Replace both batteries at the same time with new ones. Do not mix old and new batteries.

4. Troubleshooting

If you encounter issues with your Instax Mini 8, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Camera does not turn on.	Dead or incorrectly inserted batteries.	Check battery polarity or replace with new AA batteries.
No picture ejects after pressing shutter.	Film pack empty or incorrectly loaded.	Check film counter; if "0", replace film pack. Ensure film is loaded correctly.
Pictures are too dark/light.	Incorrect exposure setting.	Adjust the brightness adjustment dial to the recommended setting indicated by the lit LED.
Flash does not fire.	Flash still charging or camera malfunction.	Wait for the flash charging lamp to stop blinking. If problem persists, contact support.

5. Specifications

Feature	Detail
Brand	Fujifilm
Model Name	Instax Mini 8
Film Format Type	Instant
Picture Size	62x46mm
Minimum Shutter Speed	1/60 sec.
Maximum Shutter Speed	1/60 sec.
