

Duracell DL379 (SR521 SW)

Duracell DL379 (SR521 SW) 1.5V Silver Oxide Battery User Manual

Model: DL379 (SR521 SW)

1. INTRODUCTION

This manual provides essential information for the safe and effective use of your Duracell DL379 (SR521 SW) 1.5V Silver Oxide Battery. Please read this guide carefully before installation and use to ensure optimal performance and safety. This battery is designed for small electronic devices requiring a compact, long-lasting power source.

2. SAFETY INFORMATION

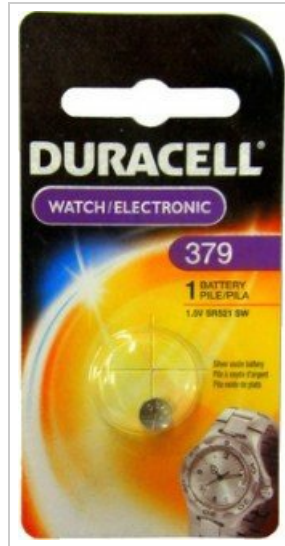

- **Keep out of reach of children:** Batteries can be swallowed, posing a choking hazard and chemical burn risk. Seek immediate medical attention if ingested.
- **Do not recharge:** This battery is not rechargeable. Attempting to recharge may cause leakage, fire, or explosion.
- **Do not disassemble or short-circuit:** This can lead to leakage, heat generation, fire, or explosion.
- **Do not expose to heat:** Avoid direct sunlight, high temperatures, or fire. This can cause leakage, fire, or explosion.
- **Proper disposal:** Dispose of used batteries according to local regulations. Do not incinerate.
- **Avoid skin and eye contact:** If battery fluid comes into contact with skin or eyes, rinse immediately with plenty of water and seek medical attention.

3. SETUP AND INSTALLATION

Follow these steps to correctly install the Duracell DL379 (SR521 SW) battery into your compatible device.

1. Identify the battery compartment on your device. Refer to your device's instruction manual for specific battery replacement procedures.

2. Open the battery compartment. If replacing an old battery, carefully remove it.
3. Observe the polarity markings (+ and -) inside the battery compartment.
4. Insert the new Duracell DL379 battery, ensuring that the positive (+) and negative (-) terminals align correctly with the markings in the compartment.
5. Close the battery compartment securely.
6. Test your device to confirm proper function.

This image displays the Duracell DL379 (SR521 SW) 1.5V Silver Oxide Battery. It is a small, coin-shaped battery, typically used in watches, calculators, and other small electronic devices. The battery's model number and voltage are clearly visible on its surface.

4. OPERATING INSTRUCTIONS

The Duracell DL379 (SR521 SW) is a primary (non-rechargeable) silver oxide battery designed to provide a stable 1.5V output. Once correctly installed, the battery will power your device until its energy is depleted. No specific operating steps are required beyond proper installation and device usage.

5. MAINTENANCE

- **Storage:** Store unused batteries in their original packaging in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Cleaning:** If necessary, gently wipe battery contacts with a clean, dry cloth to remove any dust or residue. Do not use liquids or abrasive materials.
- **Removal:** If a device will not be used for an extended period, it is recommended to remove the battery to prevent potential leakage and damage to the device.

6. TROUBLESHOOTING

If your device is not functioning after battery installation, consider the following:

- **Device not powering on:**
 - Check that the battery is installed with correct polarity (+ and -).
 - Ensure the battery compartment is closed securely.
 - Verify that the battery contacts in the device and on the battery are clean and free of obstruction.
 - If the battery is old or has been stored for a long time, it may be depleted. Replace with a new battery.

- Consult your device's manual for specific troubleshooting steps related to power issues.

- **Short battery life:**

- Ensure the battery is genuine and not expired.
- The device might have higher power consumption than anticipated.
- Environmental factors (e.g., extreme cold) can affect battery performance.

7. SPECIFICATIONS

Feature	Detail
Brand	Duracell
Model Number	DL379 (SR521 SW)
Battery Cell Composition	Silver Oxide
Voltage	1.5 Volts
Battery Capacity	16 Milliamp Hours
Reusability	Single Use (Non-rechargeable)
Recommended Uses	GPS, Watches, Calculators, Small Electronics
Cross Reference	379, 179, SR63, 1191SO, SR521SW, V379

8. DISPOSAL INFORMATION

Do not dispose of batteries in household waste. Silver oxide batteries contain materials that can be harmful to the environment if not disposed of properly. Please recycle used batteries at designated collection points or return them to a retailer that offers battery recycling services. Consult your local waste management authority for specific recycling guidelines in your area.

9. WARRANTY INFORMATION

Duracell batteries are manufactured to high standards and are warranted against defects in materials and workmanship. This warranty does not cover damage caused by misuse, abuse, improper installation, or normal wear and tear. For specific warranty terms and conditions, please refer to the official Duracell website or contact customer support.

10. CUSTOMER SUPPORT

If you have any questions or require further assistance regarding your Duracell DL379 (SR521 SW) battery, please visit the official Duracell website or contact their customer service department. Contact information can typically be found on the product packaging or the Duracell corporate website.
