## Fjords Madrid

# Fjords Madrid Swing Relaxer Recliner User Manual

Model: Madrid

## INTRODUCTION

---

This manual provides essential information for the assembly, operation, maintenance, and troubleshooting of your Fjords Madrid Swing Relaxer Recliner. Please read these instructions carefully before using the product to ensure proper function and longevity.

The Fjords Madrid Swing Relaxer is an ergonomically designed chair offering continuous support and comfort. Its features include a zero-gravity recline, integrated footrest, rocking function, and 360-degree rotation, all designed to enhance your relaxation experience.

## PRODUCT OVERVIEW

---

**Image:** The Fjords Madrid Swing Relaxer Recliner in Cacao Soft Line Leather, showcasing its elegant design and integrated headrest.

The Madrid Swing Relaxer is crafted with cold cure molded foam for lasting comfort and durability. It features the Fjords Active Release System, an integrated mechanism that provides optimal neck support, adjustable with a single movement.

# Fjords® by Hjellegjerde Swing Relaxers Multiple Styles Stocked in Multiple Colors-

## Rock.

A Swing Relaxer starts as  
a comfortable Rocker.

## Recline.

When you want to,  
A Swing Relaxer Reclines.

## Relax.

Because that's what  
it's all about-  
**Perfect Relaxation!**

**Image:** Visual representation of the recliner's three primary functions: rocking, reclining, and full relaxation, demonstrated by a user.

## SETUP

---

Your Fjords Madrid Swing Relaxer Recliner typically arrives partially assembled. Follow these steps for final setup:

1. **Unpacking:** Carefully remove all components from the packaging. Ensure all parts are present before discarding

packaging materials.

2. **Base Attachment:** If the base is separate, align the chair's main body with the base and secure it according to the included hardware. Ensure all connections are tight and stable.
3. **Headrest Adjustment:** The headrest cushion is height-adjustable. Position it to your preferred comfort level.
4. **Placement:** Place the recliner on a flat, stable surface. Ensure there is adequate space around the chair for full recline and 360-degree rotation.

*Note: For detailed assembly instructions, refer to any specific diagrams or guides included in your product packaging.*

## OPERATING INSTRUCTIONS

---

The Madrid Swing Relaxer offers multiple comfort positions. Familiarize yourself with its functions:

- **Reclining:** To recline, lean back gently. The chair's continuous back adjustment mechanism will allow you to find your desired angle. The integrated footrest will extend as you recline.
- **Rocking Function:** The chair features a comfortable rocking motion. To engage, simply lean back and forth.
- **360-Degree Rotation:** The chair base allows for full 360-degree rotation. Rotate the chair to your desired viewing or seating angle.
- **Active Release System (Neck Support):** The unique integrated mechanism provides optimal neck support. Adjust it with a single movement to customize your sitting experience.

**Image:** The recliner demonstrating its upright and fully reclined positions, highlighting the integrated footrest extension.

## MAINTENANCE

---

Proper care ensures the longevity and appearance of your recliner:

- **Cleaning Leather:** For routine cleaning, wipe the leather surface with a soft, damp cloth. For spills, blot immediately with a clean, dry cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the leather.
- **General Care:** Keep the recliner away from direct sunlight and heat sources to prevent fading and drying of the leather.
- **Mechanism Check:** Periodically check all moving parts and connections to ensure they are secure. If any part feels loose, tighten it carefully.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Chair does not recline smoothly.	Obstruction in mechanism; loose connections.	Check for any objects obstructing the mechanism. Ensure all assembly connections are secure.
Rocking function is stiff.	Mechanism requires lubrication; uneven surface.	Apply a silicone-based lubricant to moving parts (avoid oil-based products on leather). Ensure the chair is on a level surface.
Chair wobbles or feels unstable.	Loose base connections; uneven floor.	Tighten all bolts and screws connecting the chair to its base. Adjust floor levelers if present, or reposition the chair on a flat surface.
