# BWT Magnesium Mineralizer Filter Cartridges - User Manual

Model: 814136

## INTRODUCTION

The BWT Magnesium Mineralizer filter cartridges are designed to enhance tap water by reducing limescale and enriching it with magnesium. This process improves the taste of your water and helps protect household appliances from limescale buildup. Each pack contains 6 filter cartridges, model 814136. This manual provides instructions for the proper setup, operation, and maintenance of your BWT Magnesium Mineralizer filter cartridges to ensure optimal performance and longevity.

## PRODUCT OVERVIEW

Image: A pack of six BWT Magnesium Mineralizer filter cartridges. The cartridges are individually wrapped and designed

## SETUP INSTRUCTIONS

- 1. Unpack the Cartridge:** Remove one BWT Magnesium Mineralizer filter cartridge from its protective packaging.
- 2. Prepare the Cartridge:** Submerge the new filter cartridge completely in cold tap water for approximately 5 minutes. This helps to remove any air bubbles and activate the filter material.
- 3. Insert into System:** Place the prepared cartridge firmly into the designated filter holder of your compatible BWT water filter system (e.g., a BWT water filter jug). Ensure it is seated correctly to prevent water bypass.
- 4. Initial Filtration:** Fill the water filter system with tap water. Discard the first two filtered fillings. This flushes out any loose filter particles and prepares the cartridge for regular use.
- 5. Ready for Use:** Your BWT Magnesium Mineralizer filter system is now ready to provide filtered, magnesium-enriched water.

## OPERATING INSTRUCTIONS

- Filter Capacity:** Each BWT Magnesium Mineralizer filter cartridge has a capacity of approximately 120 liters of water or a maximum usage duration of 4 weeks, whichever comes first.
- Replacement Indicator:** Many BWT water filter systems include an electronic or manual indicator to remind you when to replace the cartridge. Follow the instructions for your specific system.
- Optimal Performance:** For best results and to maintain water quality, replace the filter cartridge as recommended. Using a cartridge beyond its recommended lifespan may reduce its effectiveness.
- Water Temperature:** Use the filtered water for cold beverages or for boiling. Do not filter hot water through the system.

## MAINTENANCE

- System Cleaning:** Regularly clean your BWT water filter jug or system according to its specific instructions. This typically involves washing with mild detergent and rinsing thoroughly.
- Cartridge Storage:** Store unused cartridges in their original, sealed packaging in a cool, dry place away from direct sunlight.
- Disposal:** Dispose of used filter cartridges according to local regulations for household waste. The plastic components are generally recyclable.

## TROUBLESHOOTING

| Problem              | Possible Cause   | Solution   |
|----------------------|--|--|
| Slow filtration rate | Cartridge is clogged or nearing end of life. Air bubbles trapped in cartridge. | Remove and re-submerge cartridge to release air. Replace the filter cartridge if it has reached its capacity or age limit. |

| Problem                                   | Possible Cause   | Solution   |
|---|--|--|
| Water taste not improved or unusual taste | Cartridge not properly prepared.<br>Cartridge has reached end of life.       | Ensure the cartridge was soaked for 5 minutes before first use. Discard the first two filtered fillings. Replace the filter cartridge. |
| Water leaking from filter system          | Cartridge not seated correctly.<br>System components not assembled properly. | Remove and re-insert the cartridge, ensuring a tight seal. Check all parts of the water filter system for correct assembly.            |

## SPECIFICATIONS

---

- **Model Number:** 814136 (Pack of 6 cartridges)
- **Material:** Plastic
- **Product Dimensions (pack):** 12.36"D x 2.4"W x 4.88"H
- **Item Weight (pack):** 720 Grams
- **Filter Capacity (per cartridge):** 120 Liters or 4 weeks
- **Product Benefits:** Reduces limescale, enriches water with magnesium.
- **External Testing Certification:** REACH
- **Manufacturer:** BWT
