SAFE 230 EC

SAFE 230 EC Coin Case User Manual

Model: 230 EC | Brand: SAFE

INTRODUCTION

This manual provides comprehensive instructions for the proper use, setup, and maintenance of your SAFE 230 EC Coin Case. Designed for secure and organized storage of your valuable coin collection, this compact case features a durable aluminum construction and specialized trays for various coin sizes, including US Silver Eagles.

PRODUCT OVERVIEW

The SAFE 230 EC Coin Case is an aluminum carrying case designed for coin collectors. It includes six trays, each capable of holding multiple coins. The case features a secure latching mechanism and a sturdy handle for portability.

Figure 1: The SAFE 230 EC Coin Case. This image shows the compact aluminum case with its handle, latches, and a decorative USA 3D logo on the lid. The case is designed for secure and organized coin storage.

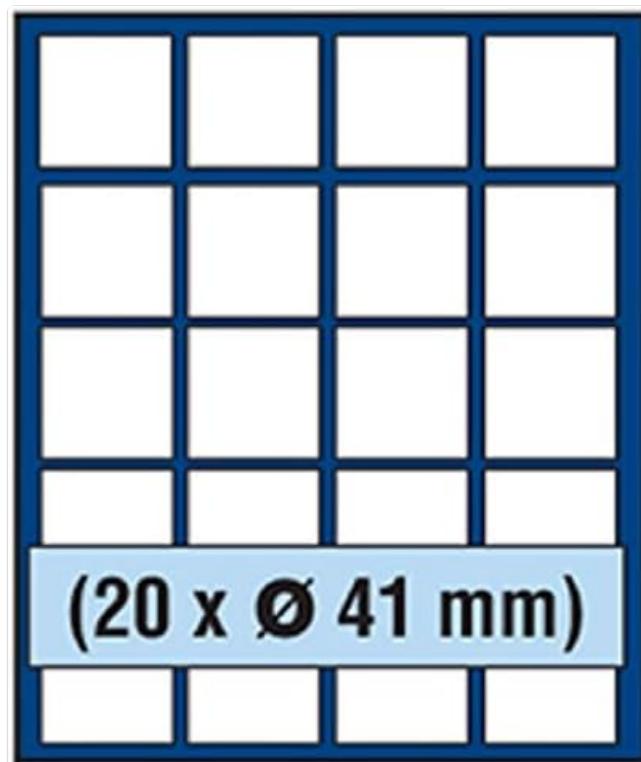

Figure 2: Example of a coin tray grid. This diagram illustrates the grid layout of a coin tray, indicating that it can hold 20 coins with a diameter of 41 mm.

diameter of up to 41 mm. The case includes six such trays.

Key Components:

- **Aluminum Carrying Case:** Durable exterior for protection.
- **Secure Latches:** To keep the case closed during transport and storage.
- **Ergonomic Handle:** For comfortable carrying.
- **Six Coin Trays:** Removable trays designed to hold various coin sizes, including those up to 41mm in diameter, suitable for US Silver Eagles.

SETUP

1. **Unpack the Case:** Carefully remove the coin case from its packaging. Inspect for any signs of damage.
2. **Open the Latches:** Locate the two latches on the front of the case. Push or slide them to release the lid.
3. **Remove Trays:** The six coin trays are stacked inside the case. Gently lift them out if you need to access the bottom of the case or arrange them.
4. **Prepare Trays for Coins:** Each tray has individual compartments. Ensure the compartments are clean and free of debris before placing coins.

OPERATING INSTRUCTIONS

1. **Placing Coins:** Carefully place one coin into each designated compartment within the trays. Ensure coins fit snugly without forcing them, especially for coins up to 41mm in diameter.
2. **Stacking Trays:** Once coins are placed, stack the trays neatly back into the case. Ensure they are aligned correctly to prevent damage to coins or the case.
3. **Closing the Case:** Gently lower the lid of the case. Align the latches with their respective catches and press or slide them until they securely click into place. Verify that both latches are fully engaged before moving the case.
4. **Transporting the Case:** Use the integrated handle for carrying. Always ensure the latches are securely fastened before lifting or transporting the case.

MAINTENANCE

- **Cleaning the Exterior:** Wipe the aluminum exterior with a soft, dry cloth. For stubborn marks, a slightly damp cloth with mild soap can be used, followed by immediate drying. Avoid abrasive cleaners.
- **Cleaning Trays:** The plastic trays can be gently wiped with a soft, lint-free cloth. If necessary, they can be hand-washed with cool water and a very mild soap, then thoroughly air-dried before reinserting into the case. Ensure no moisture remains.
- **Storage:** Store the coin case in a cool, dry place away from direct sunlight and extreme temperatures to protect

both the case and its contents.

- **Latch Inspection:** Periodically check the latches for proper function and alignment. Ensure they engage securely.

TROUBLESHOOTING

- **Case Not Closing Properly:**

- Ensure all trays are correctly stacked and seated within the case. There should be no items protruding from the trays or the case interior that prevent the lid from closing flush.
- Check that the latches are clear of any obstructions and are aligned with their catches.

- **Trays Not Fitting:**

- Verify that the trays are oriented correctly. They are designed to fit in a specific way.
- Ensure no coins are misplaced or overlapping within the compartments, which could prevent proper stacking.

SPECIFICATIONS

Feature	Detail
Model Number	230 EC
Product Dimensions	9.84 x 8.46 x 2.76 inches
Material	Aluminum (Case)
Tray Capacity	6 trays, each holding multiple coins (e.g., 20 coins up to Ø 41 mm)
ASIN	B00AFVVVF2
