United Pacific CML6872R

United Pacific CML6872R 18LED Side Marker Light Instruction Manual

Model: CML6872R | Brand: United Pacific

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your United Pacific CML6872R 18LED Side Marker Light. This product is specifically designed for 1968-1972 Chevrolet and GMC trucks, offering enhanced visibility and a classic aesthetic with modern LED technology. Please read all instructions carefully before proceeding with installation or use.

PRODUCT OVERVIEW

The United Pacific CML6872R is an 18LED side marker light featuring a durable injection-molded polycarbonate lens and a stylish stainless steel trim. Its sealed electronics ensure longevity and resistance to environmental elements. This unit operates on a 12-volt DC system and is designed to replace existing side marker lights on compatible truck models.

SAFETY INFORMATION

- Always disconnect the vehicle's battery before performing any electrical work to prevent electrical shock or damage to the vehicle's electrical system.
- Wear appropriate personal protective equipment, such as safety glasses and gloves, during installation.
- Ensure all wiring connections are secure and properly insulated to prevent short circuits.
- Verify that the product is compatible with your vehicle's voltage system (12V DC).

PACKAGE CONTENTS

The following items are included with your purchase:

- One (1) United Pacific 18 LED Side Marker Light with Stainless Steel Trim (Red)

Note: If you require two units for both sides of your vehicle, please ensure you order two separate units.

SETUP & INSTALLATION

Installation of the CML6872R side marker light is designed to be straightforward, requiring no modifications to your vehicle's existing structure. The unit features an easy electrical connection with a 194 plug.

Installation Steps:

1. **Preparation:** Ensure the vehicle's ignition is off and the battery is disconnected.
2. **Remove Old Light:** Carefully remove the existing side marker light from your truck. This typically involves unscrewing mounting fasteners and disconnecting the electrical connector.
3. **Connect New Light:** Connect the 194 plug of the new United Pacific 18LED Side Marker Light to your vehicle's existing wiring harness. Ensure a secure connection.
4. **Mount New Light:** Position the new side marker light into the opening and secure it using the original mounting fasteners. Do not overtighten.
5. **Test Functionality:** Reconnect the vehicle's battery and test the side marker light to ensure it functions correctly with your vehicle's lighting system.

MAINTENANCE

The CML6872R LED side marker light is designed for minimal maintenance due to its sealed electronics and durable construction. However, periodic inspection and cleaning are recommended to ensure optimal performance and appearance.

- **Cleaning:** Use a soft cloth and mild automotive cleaning solution to clean the lens. Avoid abrasive cleaners or harsh chemicals that could damage the polycarbonate.
- **Inspection:** Regularly check the light for any signs of damage, cracks, or loose connections. Ensure the stainless steel trim remains securely attached.
- **Wiring:** Periodically inspect the wiring for fraying, corrosion, or damage. Address any issues promptly to maintain electrical integrity.

TROUBLESHOOTING

If you encounter issues with your side marker light, refer to the following troubleshooting guide:

Problem	Possible Cause	Solution
Light does not illuminate	No power to the light; Loose or faulty wiring connection; Blown fuse.	Check vehicle's fuse box; Inspect wiring connections for continuity; Ensure the 194 plug is fully seated.
Light is dim or flickers	Poor electrical connection; Insufficient voltage; Corrosion on contacts.	Clean and secure all electrical connections; Verify vehicle's 12V DC system is functioning correctly.
Moisture inside the lens	Seal compromise.	While the unit is sealed, extreme conditions can sometimes cause condensation. If persistent, inspect for damage to the housing or seal.

SPECIFICATIONS

Feature	Detail
Brand	United Pacific
Model Number	CML6872R
Light Source Type	LED (18 LEDs)
Color	Red
Voltage	12 Volts DC
