

CubicFun MC117H

CubicFun MC117H St. Paul's Cathedral 3D Puzzle

INSTRUCTION MANUAL

1. Introduction

This manual provides comprehensive instructions for assembling your CubicFun MC117H St. Paul's Cathedral 3D Puzzle. Designed for enthusiasts of architecture and model building, this puzzle offers an engaging and rewarding experience. Please read through all instructions carefully before beginning assembly to ensure a smooth and successful construction process.

2. Safety Information

WARNING: This product contains small parts and is not suitable for children under 3 years of age due to choking hazards. Adult supervision is recommended during assembly, especially for younger users. Keep packaging materials away from children.

3. Package Contents

Before starting, verify that all components are present in your package:

- Pre-cut puzzle sheets (containing 117 pieces)
- Instruction leaflet with assembly diagrams

If any parts are missing or damaged, please contact CubicFun customer support.

4. Setup and Preparation

1. **Unpack:** Carefully remove all puzzle sheets and the instruction leaflet from the box.
2. **Organize:** Lay out the puzzle sheets on a clean, flat surface. Familiarize yourself with the different

sheets and the numbering system.

3. **Review Instructions:** Thoroughly read the included instruction leaflet. It contains detailed diagrams and step-by-step guidance specific to the St. Paul's Cathedral model.
4. **Identify Pieces:** Each piece is numbered. Locate the corresponding numbers on the puzzle sheets and the instruction diagrams.

The estimated construction time for this model is approximately 100-120 minutes.

This image displays the packaging for the CubicFun MC117H St. Paul's Cathedral 3D Puzzle alongside the fully assembled model. The box features the puzzle's name, brand, and an image of the cathedral. The assembled model showcases the intricate details of St. Paul's Cathedral.

5. Assembly Instructions

Follow the step-by-step instructions provided in the dedicated instruction leaflet included in your puzzle box. The general assembly process involves:

- **Punching Out Pieces:** Carefully detach each numbered piece from its sheet. Use caution to avoid tearing.
- **Connecting Pieces:** Match the corresponding slots and tabs to connect pieces. The instruction leaflet will guide you through the sequence of building different sections of the cathedral.
- **Building Layers:** The puzzle is typically built in layers, starting from the base and working upwards to

form the structure, including the iconic dome and towers.

- **Final Assembly:** Once individual sections are complete, connect them to form the complete St. Paul's Cathedral model.

Refer to the diagrams in the instruction leaflet for visual guidance on each step. Do not force pieces together; if a piece does not fit, re-check the numbers and orientation.

6. Maintenance

To preserve your assembled CubicFun St. Paul's Cathedral 3D Puzzle:

- Keep the model in a dry environment, away from direct sunlight and excessive humidity, to prevent material degradation.
- Dust the model gently with a soft, dry cloth or a soft brush. Avoid using liquids or abrasive cleaners.
- Handle the assembled model with care to prevent pieces from detaching.

7. Troubleshooting

If you encounter difficulties during assembly:

- **Pieces not fitting:** Double-check the piece numbers and their orientation against the instruction diagrams. Ensure you are not trying to force an incorrect piece.
- **Missing pieces:** Carefully re-examine the puzzle sheets and the packaging. If a piece is genuinely missing, contact CubicFun customer support for assistance.
- **Structural instability:** Ensure all connections are firm. If a section feels loose, re-examine the connections for any missed or improperly fitted tabs.

8. Specifications

Model Number	MC117H
Brand	CubicFun
Number of Pieces	117
Material	Paper
Assembled Dimensions (L x W x H)	38.1 x 20.32 x 12.7 cm
Item Weight	453.59 g (approx. 1 Pound)
Recommended Age	11+ years (also suitable for 6-11 years and up with supervision)
Assembly Required	Yes
Estimated Construction Time	100-120 minutes

9. Warranty and Support

For information regarding product warranty, returns, or customer support, please refer to the contact details provided on the product packaging or visit the official CubicFun website. Specific warranty terms may vary by region and retailer.
