SAFETY INFORMATION

- **Indoor Use Only:** This product is designed for indoor use in dry locations. Do not expose to water or moisture.
- **Electrical Safety:** Plug directly into a standard 120V household outlet. Do not use with extension cords unless absolutely necessary and ensure the cord is rated for the product's wattage.
- **Avoid Overheating:** Do not cover the night light while in operation. Ensure adequate ventilation around the unit.
- **Fragile Components:** The bubble tube is made of glass. Handle with care to prevent breakage.
- **Keep Out of Reach:** Keep away from children and pets to prevent accidental damage or injury.

SETUP

1. **Unpack:** Carefully remove the night light from its packaging.

2. **Inspect:** Check the night light for any visible damage. Do not use if damaged.
3. **Plug In:** Insert the night light into a standard 120V household electrical outlet. The unique swivel base allows for use in both horizontal and vertical outlets, ensuring the bubble tube remains upright.
4. **Initial Heating:** Allow approximately 30-60 seconds for the night light to heat up and begin bubbling. The bubbling action is heat-activated.

Video: User demonstration highlighting the swivel base feature, which allows the night light to be oriented correctly in various outlets.

OPERATING INSTRUCTIONS

Once plugged in and heated, the liquid inside the glass tube will begin to bubble, creating a mesmerizing visual effect.

The night light features a simple on/off switch located on the base for convenient control.

- **Turning On:** Flip the switch on the base to the 'ON' position. The light will illuminate, and bubbling will commence after a short warm-up period.
- **Turning Off:** Flip the switch on the base to the 'OFF' position to turn off the light.

Video: User video showcasing the continuous bubbling action of the night light once it has warmed up.

MAINTENANCE

- **Cleaning:** Disconnect from power before cleaning. Wipe the exterior with a soft, dry cloth. Do not use abrasive cleaners or immerse in water.
- **Storage:** When not in use, store the night light in its original packaging or a safe, dry place to protect the glass bubble tube from damage.
- **No User-Serviceable Parts:** The bubble tube and bulb are integrated and not designed for replacement by the user. Attempting to disassemble the unit may cause damage and void any implied warranty.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light is on, but no bubbling.	Insufficient warm-up time.	Allow 30-60 seconds for the unit to heat up. If still not bubbling, gently shake the unit to initiate the action.
Night light appears upside down when plugged in.	Outlet orientation.	This night light features a swivel base. Gently rotate the base to adjust the orientation so the bubble tube is upright.
Light does not turn on.	No power to outlet or switch is off.	Check if the outlet is functional by plugging in another device. Ensure the on/off switch on the night light's base is in the 'ON' position.
