Mohu Leaf 50 Amplified Indoor HDTV Antenna User Manual

Model: MH-110584

INTRODUCTION

Welcome to the Mohu Leaf 50 Amplified Indoor HDTV Antenna user manual. This guide provides detailed instructions for installing, operating, and maintaining your antenna to receive free over-the-air television broadcasts. The Mohu Leaf 50 is designed to deliver clear high-definition picture and sound, utilizing a Jolt in-line amplifier for enhanced signal reception up to a 60-mile range.

WHAT'S INCLUDED

- Mohu Leaf 50 Amplified Antenna
- 12 ft. Detachable High-Performance Coaxial Cable
- Jolt Switch 18 dB In-Line Amplifier with 6 ft. USB Cable
- USB Power Adapter
- Hook & Loop Tabs
- Push Pins
- Instruction Manual (this document)

Image: The Mohu Leaf 50 antenna and all its included components, including the flat antenna, coaxial cable, Jolt Switch amplifier, and power adapter.

SETUP GUIDE

Step 1: Plan Antenna Placement

Use a free antenna signal locator app (e.g., Antenna Point) to identify the location of broadcast towers relative to your home. This will help determine the optimal placement for your antenna.

Image: A black Mohu Leaf 50 antenna mounted on a window, overlooking a city skyline, illustrating optimal placement for signal reception.

Step 2: Connect the Antenna

Connect the 12 ft. coaxial cable to the antenna's F-connector port.

Step 3: Connect the Jolt Switch Amplifier

Attach the other end of the coaxial cable to the Jolt Switch 18 dB in-line amplifier. This amplifier boosts the signal for better reception.

Step 4: Power the Amplifier

Connect the USB cable from the Jolt Switch amplifier to a USB port on your television or to the included USB power adapter, then plug the adapter into a wall outlet.

Step 5: Connect to TV

Connect the amplifier's coaxial output to the "Antenna In" or "Cable In" port on the back of your television.

Step 6: Mount the Antenna

Position the antenna in the location identified in Step 1. The antenna can be mounted on a wall or window using the provided hook & loop tabs or push pins. Optimal placement is often near a window and as high as possible.

Image: A black Mohu Leaf 50 antenna is mounted on a light-colored wall to the right of a large flat-screen television, which is displaying a green screen with the Mohu logo.

OPERATING INSTRUCTIONS

Scanning for Channels

After connecting the antenna, you must perform a channel scan on your television to find available over-the-air broadcasts.

1. Turn on your television and select the correct input source (usually "TV" or "Antenna").
2. Navigate to your TV's "Settings" or "Setup" menu.
3. Look for an option like "Channel Scan," "Auto Program," "Auto Tune," or "Antenna Setup."
4. Select "Antenna" or "Air" as the signal source, not "Cable."
5. Start the channel scan. This process may take several minutes.
6. Once the scan is complete, your TV will display the channels it found.

Refer to your television's user manual for specific instructions on how to perform a channel scan.

PLACEMENT TIPS FOR OPTIMAL RECEPTION

- **Higher is Better:** Place the antenna as high as possible, ideally on an upper floor or attic.
- **Near a Window:** Windows often provide the best line of sight to broadcast towers.
- **Experiment with Orientation:** Try different positions and orientations (flat on a wall, behind the TV, on a window) and re-scan for channels after each adjustment to find the best signal.
- **Avoid Obstructions:** Large metal objects, concrete walls, and other electronic devices can interfere with the signal.
- **Check Signal Strength:** Some TVs have a signal strength meter in their settings menu, which can help you fine-tune placement.

TROUBLESHOOTING

No Channels Found or Poor Reception

- **Re-scan for Channels:** Always perform a channel scan after moving the antenna or if you experience reception issues.
- **Check Connections:** Ensure all cables are securely connected to the antenna, amplifier, and TV.
- **Reposition Antenna:** Try moving the antenna to a different location, especially higher up or closer to a window. Re-scan after

each move.

- **Check Amplifier Power:** Verify that the Jolt Switch amplifier is powered (either via TV USB or wall adapter).
- **Verify TV Input:** Make sure your TV is set to the correct input (Antenna/Air).
- **External Interference:** Large appliances, LED lights, or other electronic devices can cause interference. Try moving the antenna away from such sources.
- **Weather Conditions:** Severe weather can temporarily affect signal reception.

Pixelated Picture or Audio Dropouts

- This often indicates a weak signal. Try repositioning the antenna and re-scanning for channels.
- Ensure the amplifier is correctly connected and powered.

Missing Specific Channels

- Some channels may broadcast from different directions. Try rotating the antenna slightly and performing another channel scan.
- Use an antenna locator app to confirm the direction of the missing channel's broadcast tower.

SPECIFICATIONS

Feature	Detail
Brand	Mohu
Model Number	MH-110584
Item Weight	9 ounces
Product Dimensions	0.04 x 11.5 x 10 inches
Color	White, Black (Reversible)
Special Features	Dual Band, Full HD, Low Profile, Multidirectional, Signal Booster, Wall Mount
Impedance	75 Ohm
Maximum Range	60 Miles
Antenna Type	Indoor TV Antenna
Frequency Support	UHF, VHF
Amplifier	Jolt Switch 18 dB In-Line Amplifier
Coaxial Cable Length	12 ft.

MAINTENANCE

- **Cleaning:** Wipe the antenna gently with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Cable Care:** Avoid kinking or sharply bending the coaxial cable, as this can damage the internal wiring and affect signal quality.
- **Indoor Use Only:** This antenna is designed for indoor use. Exposure to outdoor elements can damage the unit and void the warranty.

WARRANTY AND SUPPORT

The Mohu Leaf 50 Amplified Indoor HDTV Antenna comes with a one-year manufacturer warranty. For warranty claims, technical support, or additional assistance, please visit the official Mohu website or contact their customer service.

Warranty Mohu warrants our products against defects in materials or workmanship for a period of one 1 year from the date of purchase. During this period, the products will be replaced or repaired at no charge. This warranty does not cover damage due to acts of nature, commercial use, accident, misuse, abuse, or negligence. This warranty is valid only in the USA and Canada.

There are no implied warranties of merchantability or fitness for a particular purchase except to the extent that implied warranties of either sort are required by applicable law, such warranty is limited in duration to one year.

30-Day Money-Back Guarantee
We want you to be fully satisfied with every item that you purchase from Mohu. If you are not satisfied with your purchase for any reason, you may return it within 30 days of delivery for a full refund of the purchase price, minus the shipping, handling or other additional charges. Please note that the item price and applicable taxes will be prorated.

Special-order, custom or discontinued items are non-returnable.

Returns will not be accepted if any of the following conditions apply:

- Purchase was made through another retailer.
- Packing slips must accompany returns for items we no longer issue RMA numbers.
- The product must be in its original box and be damage-free, including all original packaging and documentation.
- The product is not returned with all hardware, manuals, and accessories.
- The product must be unmodified or modified from its original form in a manner not consistent with typical use.
- No refunds will be given after thirty (30) days from date of invoice.
- Please allow 7-14 business days for the return and refund process to be completed.

Return Procedure

If you damage your packing slip, please contact us via Contact Us. You may also contact us by phone at our toll-free number 1-855-4GOMOHU (919-896-7696, 8am-5pm EST, M-F) about items you would like to return. Include your name, order number and approximate date of purchase for faster service.
