GIVI TRK52N

GIVI TRK52N Monokey Trekker Top Case User Manual

Model: TRK52N

INTRODUCTION

The GIVI TRK52N Monokey Trekker Top Case is a robust and spacious storage solution designed for motorcycles. It features the Monokey fixing system, allowing for secure attachment and easy removal. Constructed from polymers reinforced with glass fibers and an anodized aluminum cover, this top case offers high structural rigidity and resistance to various weather conditions. It provides a generous 52-liter capacity, capable of accommodating two modular helmets.

Figure 1: GIVI TRK52N Monokey Trekker Top Case. This image shows the silver aluminum lid and black polymer base, with the Monokey locking mechanism visible at the front.

INSTALLATION AND SETUP

The GIVI TRK52N Top Case requires a GIVI Monokey hardware system (sold separately) for installation on your motorcycle. Ensure you have the correct Monokey plate compatible with your specific motorcycle model before proceeding.

Mounting the Monokey Plate

Refer to the specific instructions provided with your GIVI Monokey mounting plate for proper installation onto your motorcycle's luggage rack. Ensure all bolts are securely tightened according to the manufacturer's torque specifications.

Attaching the Top Case

1. Align the Monokey attachment points on the bottom of the TRK52N top case with the corresponding points on the installed Monokey plate.
2. Press the top case down firmly until you hear a click, indicating it is securely latched onto the plate.
3. Verify the case is properly secured by gently attempting to lift it without pressing the release button. It should not detach.

OPERATING THE TOP CASE

Opening and Closing

- **To Open:** Insert the key into the lock cylinder and turn it to the unlocked position. Press the upper button located near the lock to release the lid. Lift the lid to access the interior.
- **To Close:** Lower the lid until it clicks into place. Turn the key back to the locked position to secure the lid.

Locking and Unlocking

The integrated lock mechanism secures both the lid and the case to the Monokey plate. Always ensure the key is turned to the locked position when leaving the motorcycle unattended to prevent theft and accidental opening.

Removing the Top Case

1. Ensure the top case is unlocked.
2. Press the lower button, typically marked "PRESS" or similar, located near the lock cylinder.
3. While holding the button, lift the top case upwards and away from the Monokey plate.

CAPACITY AND STORAGE

The TRK52N offers a substantial 52 liters of storage capacity. This allows for the convenient storage of various items, including up to two modular helmets. An internal elastic strap is provided to help secure contents during travel, preventing movement and potential damage.

CARE AND MAINTENANCE

- **Cleaning:** Clean the top case regularly with mild soap and water. Avoid abrasive cleaners or solvents, as these can damage the finish and materials.
- **Inspection:** Periodically inspect the mounting hardware, hinges, and lock mechanism for any signs of wear, damage, or looseness. Tighten any loose fasteners.
- **Seals:** Check the rubber seals around the lid to ensure they are intact and free of debris, which helps maintain the case's

weather resistance.

- **Lubrication:** Apply a small amount of silicone spray or graphite to the lock cylinder and hinges periodically to ensure smooth operation.

TROUBLESHOOTING COMMON ISSUES

- **Difficulty Locking/Unlocking:** Ensure the key is fully inserted and the lid is properly closed. Check for any obstructions in the lock mechanism. Lubricate the lock cylinder if necessary.
- **Case Not Attaching Securely:** Verify that the Monokey plate is correctly installed and that the top case is properly aligned before pressing down. Ensure no debris is obstructing the attachment points.
- **Water Ingress:** Inspect the rubber seal around the lid for damage or displacement. Ensure the lid is fully closed and latched.

PRODUCT SPECIFICATIONS

Brand	GIVI
Model	TRK52N
Capacity	52 Liters
Material	Polymers reinforced with glass fibers, anodized aluminum cover
Dimensions (L x W x H)	14.17" x 20.08" x 24.8"
Item Weight	12.76 Pounds
Mounting System	Monokey (requires separate hardware)
Color	Silver

WARRANTY INFORMATION

GIVI products are typically covered by a manufacturer's warranty against defects in materials and workmanship. For specific details regarding the warranty period and terms for your TRK52N Top Case, please refer to the documentation included with your purchase or visit the official GIVI website. Retain your proof of purchase for warranty claims.

CUSTOMER SUPPORT

Should you require further assistance, have questions not covered in this manual, or need to report an issue, please contact GIVI customer service or the authorized retailer from whom you purchased the product. Provide your product model (TRK52N) and any relevant purchase information to facilitate support.
