Miyuki DB708-20G

Miyuki DB708-20G Delica Beads Instruction Manual

Model: DB708-20G | Brand: Miyuki

1. PRODUCT OVERVIEW

The Miyuki DB708-20G Delica Beads are high-quality, round glass beads specifically designed for intricate beadwork. Known for their uniform shape and size, these beads are ideal for various crafting projects, including bead weaving and stitching. This package contains approximately 4,000 capsules of Greyski DB708 colored beads.

Image 1: Miyuki DB708-20G Delica Beads, Greyski DB708 color, shown in their transparent packaging.

Delica beads are distinguished by their precise cylindrical shape, which allows for a smooth and even finish in beadwork. This uniformity makes them a preferred choice for detailed patterns and designs.

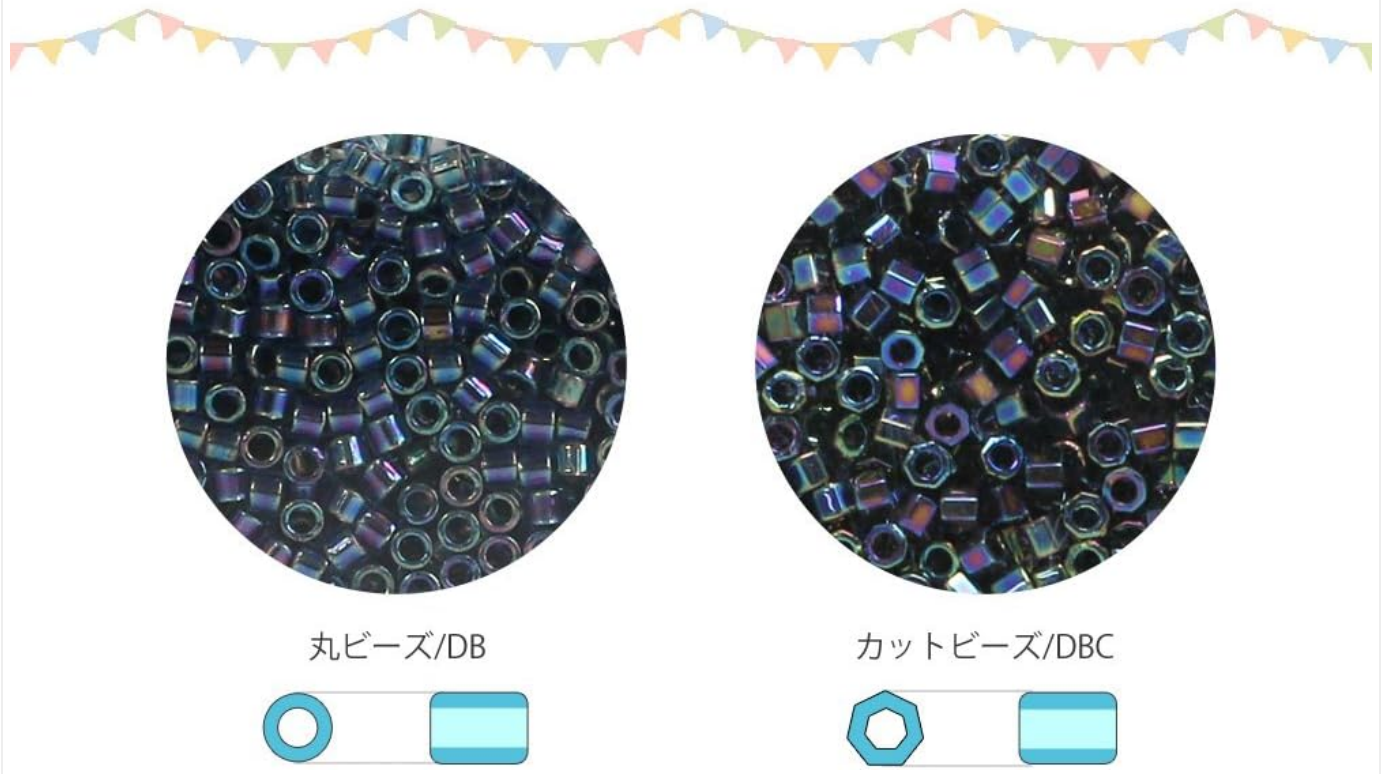

Image 2: A visual comparison illustrating the difference between Miyuki Round Beads (DB) and Cut Beads (DBC), highlighting the smooth, consistent shape of the round Delica beads.

2. USAGE AND APPLICATION

Miyuki Delica Beads are versatile and can be used in a wide range of crafting applications. Their precise dimensions and large hole size relative to their diameter make them particularly suitable for:

- **Bead Weaving:** Ideal for techniques such as Peyote stitch, Brick stitch, and Loom weaving, where uniform beads are crucial for creating even fabric-like textures.
- **Stitching:** Excellent for embroidery and embellishment, providing a refined and consistent appearance.
- **Jewelry Making:** Suitable for creating necklaces, bracelets, earrings, and other accessories with intricate designs.
- **Other Crafts:** Can be incorporated into various decorative projects requiring small, high-quality glass beads.

For best results, use appropriate beading needles and thread sizes that complement the bead's hole diameter.

3. CARE AND MAINTENANCE

To ensure the longevity and appearance of your Miyuki Delica Beads and finished projects, follow these simple care guidelines:

- **Storage:** Store beads in a dry, cool place away from direct sunlight to prevent any potential color fading or material degradation. Keep them in sealed containers to avoid dust accumulation and accidental spills.
- **Cleaning:** If necessary, gently wipe beads with a soft, dry cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the bead's finish.
- **Handling:** Handle beads with care to prevent breakage, especially when working with small quantities or delicate designs.

4. SPECIFICATIONS

Feature	Detail
Model Number	DB708-20G
Brand	Miyuki
Color	Greyski DB708
Material	Glass
Shape	Round
Capacity	0.7 oz (20 g)
Approximate Quantity	4,000 capsules
Bead Dimensions (W x H)	Approx. 0.06 x 0.05 inches (1.6 x 1.3 mm)
Hole Size	Approx. 0.03 - 0.03 inches (0.80 - 0.85 mm)
Item Weight	1.09 ounces
Package Dimensions	2.36 x 1.97 x 0.79 inches

5. TROUBLESHOOTING AND TIPS

While Miyuki Delica Beads are known for their quality, here are some tips for common situations:

- **Needle Compatibility:** If beads are difficult to thread, ensure you are using a fine beading needle (e.g., size 10 or 12) appropriate for the bead's hole size.
- **Thread Selection:** Use a strong, thin beading thread (e.g., Nymo, FireLine, or C-Lon) that passes through the bead multiple times without fraying or causing stress to the bead.
- **Preventing Breakage:** Although durable, glass beads can break under excessive force. Avoid overtightening stitches or applying undue pressure when manipulating beads.
- **Color Consistency:** While Miyuki strives for consistency, slight variations in dye lots can occur. If working on a large project, consider purchasing enough beads from the same lot.

6. WARRANTY AND SUPPORT

No specific warranty information is provided for this product. For product inquiries, technical support, or further assistance, please refer to the official Miyuki website or contact your retailer.
