LEGO 70403

LEGO Dragon Mountain (Model 70403) Instruction Manual

PRODUCT OVERVIEW

Travel to Dragon Mountain to battle its fire-breathing guardian. Load up the large catapult and fire it at the dragon's tower. Defeat the dragon and the Dragon Wizard. Search for the King's stolen gold hidden in the dragon's nest and find the secret potion room. Then overpower the Dragon soldier on the steps of the tower and rescue the princess from the dark dungeon. Includes 5 minifigures with weapons and accessories: 2 King's Knights, princess, Dragon Wizard and a Dragon soldier.

SETUP AND ASSEMBLY

The LEGO Dragon Mountain set (Model 70403) is designed for ages 6-12. Assembly involves connecting various LEGO bricks and elements according to the step-by-step instructions provided in the included manual. Pieces are typically organized into numbered bags to streamline the building process. Ensure all pieces are accounted for before beginning assembly. The set includes components to build a mountain

fortress with a tower, a large catapult, and a dragon.

OPERATING INSTRUCTIONS

- **Catapult Operation:** The large catapult features wheels and a functional catapult mechanism. Load a projectile into the catapult's basket and press down on the lever to launch it towards targets, such as the dragon's tower.
- **Dragon Features:** The dragon model is designed with articulated parts, allowing for various poses. Its mouth can open and close, and its wings and tail can be adjusted for dynamic display or play.
- **Fortress Interaction:** The mountain fortress includes a tower with a dungeon and a dragon nest. The dungeon door can be opened to rescue minifigures. A secret gold compartment and potion room are integrated into the dragon's nest area, providing interactive play elements.
