2. Important Safety Information

WARNING: Adult supervision is required at all times.

- Maximum number of children on slide: 1.
- Maximum weight limit: 50 lbs (22.7 kg).
- Ensure the slide is placed on a soft, level surface, such as grass or a play mat, away from hard surfaces, fences, or other obstacles.
- Check all connections and components regularly to ensure they are secure before each use.
- Do not allow children to climb on the outside of the slide or stand on the top platform.
- Dress children in appropriate clothing, avoiding loose items that could get caught.

3. Parts List

The Little Tikes Easy Store Large Slide comes in two main components for simple assembly:

- Slide Section (1)
- Step/Ladder Section (1)
- Locking Support Arm (1) - pre-attached or to be secured during assembly.

4. Setup and Assembly

Assembly of the Little Tikes Easy Store Large Slide is designed to be quick and tool-free. The product consists of two main pieces that snap together.

1. **Unpack Components:** Carefully remove all parts from the packaging.

2. **Align Sections:** Position the slide section and the step/ladder section so that the connection points align.
3. **Secure Connection:** Firmly push the slide section onto the step/ladder section until you hear a click, indicating a secure connection. Some users have found that applying firm pressure, or even gently bouncing the connected pieces on a carpeted surface, helps to fully engage the locking mechanism.
4. **Engage Support Arm:** Ensure the locking support arm is properly extended and secured between the slide and step sections for maximum stability.

5. Operating Instructions

The Little Tikes Easy Store Large Slide is designed for simple and intuitive use by toddlers and young children.

- **Climbing:** Children should use the wide, easy-to-climb steps on the ladder section. Encourage them to hold onto the handles at the top for stability.
- **Sliding:** Once at the top, children should sit down facing forward and slide feet-first down the gentle slope.
- **Indoor/Outdoor Use:** This slide is suitable for both indoor and outdoor environments. When used outdoors, ensure it is placed on a soft, level surface. For indoor use, place it on a carpeted area or use a mat underneath.

6. Maintenance and Care

- **Cleaning:** The durable plastic construction makes the slide very easy to clean. Simply wipe down with a damp cloth and mild soap as needed.
- **Storage:** The Easy Store design allows the slide to fold for compact storage. To fold, detach the locking support arm and bring the slide and step sections together. This makes it convenient to store in a closet or garage.
- **Outdoor Exposure:** While designed for outdoor use, prolonged exposure to direct sunlight and harsh weather conditions may lead to some color fading over time.
- **Water Accumulation:** If used with water (e.g., in a kiddie pool), water may enter the hollow plastic sections through small vent holes. It can be challenging to completely drain this water. Ensure the slide is thoroughly dried and tilted to allow water to escape before storing to prevent mildew or unpleasant odors.

7. Troubleshooting

- **Difficulty Assembling:** If the slide and step sections do not snap together easily, ensure they are perfectly aligned. Applying firm, even pressure or gently rocking the pieces may help. Some users have found success by placing the slide on a carpeted floor and applying downward pressure or a gentle bounce.
- **Water Inside Slide:** If water accumulates inside the plastic, tilt the slide to allow water to drain from the small

vent holes. This may require repositioning the slide multiple times.

- **Slide Instability:** Ensure the locking support arm is fully engaged and all connections are secure. The wide base is designed for stability, but placement on uneven ground can affect this.
