SBU SBU376

SBU Motorcycle Cover Instruction Manual

COMPATIBLE WITH HONDA SHADOW SPIRIT 750 (VT750DC)

Model: SBU376

1. Product Overview

The SBU Motorcycle Cover is designed to provide comprehensive protection for your Honda Shadow Spirit 750 (VT750DC) against various outdoor elements. Constructed from durable 600 Denier woven Polyester fabric, it offers resistance to UV rays, rain, dust, dirt, snow, and ice. Key features include built-in air vents for ventilation, a heat-resistant lining for exhaust protection, and a non-scratch windshield liner.

This semi-custom cover is engineered for a snug fit and includes essential components for secure installation and convenient storage.

GREAT QUALITY MOTORCYCLE COVER

2. Setup and Installation

1. **Ensure Motorcycle is Cool:** Before placing the cover, ensure the motorcycle's exhaust and engine components have cooled down to prevent damage to the cover's fabric.
2. **Unfold the Cover:** Carefully unfold the cover, identifying the front and rear sections. The front typically has a more defined shape for the handlebars and windshield.
3. **Position the Cover:** Drape the cover over the motorcycle, starting from the front. Ensure the non-scratch windshield liner is correctly positioned over the windshield.
4. **Secure the Hem:** The cover features an elastic band along the bottom hem for a snug fit around the base of the motorcycle. Adjust as needed.
5. **Utilize Tie-Down Cords:** Use the two included hooked elastic tie-down cords. Attach them to the built-in grommets on the cover and secure them under the motorcycle to prevent the cover from lifting in windy conditions.
6. **Optional Security:** The built-in grommets also allow for the use of a padlock and chain (not included) for added security.

3. Operating and Usage

- **All-Weather Protection:** The 600 Denier polyester fabric provides robust protection against various weather conditions, including strong UV rays, rain, snow, and dust.
- **Ventilation:** Rear air vents are integrated into the design to allow for air circulation, reducing condensation and preventing the cover from parachuting in high winds.
- **Heat Resistance:** A heat-resistant liner is incorporated in the rear section to protect the cover from hot exhaust pipes.
- **Windshield Protection:** A soft, non-scratch liner is included to protect the motorcycle's windshield from abrasion.

4. Maintenance and Storage

- **Cleaning:** To clean the cover, gently wipe it with a damp cloth and mild soap. Rinse thoroughly and allow it to air dry completely before folding or storing. Avoid harsh chemicals or abrasive brushes.
- **Storage:** When not in use, fold the cover neatly and store it in the provided storage bag. Keep the bag in a cool, dry place away from direct sunlight to prolong the cover's lifespan.

5. Troubleshooting and Fitment

This cover is designed for the base model Honda Shadow Spirit 750 (VT750DC). Fitment may vary if your motorcycle has modifications or aftermarket upgrades. Please consider the following:

- **Modifications:** If your bike features items such as a sissy bar, ape hangers, saddlebags, large fairings, or an extra tall windshield, the cover may not fit as intended. A larger size might be required for significantly altered vehicle profiles.
- **Trailer:** This cover is not designed or rated for use during trailering. Do not trailer your motorcycle with the cover installed.

6. Specifications

Feature	Detail
Brand	SBU
Model Number	SBU376
Material	Heavy-Duty 600 Denier woven Polyester fabric
