Maintenance

To ensure the longevity and cleanliness of your Sluban building block set, follow these maintenance guidelines:

- **Cleaning:** Wipe the blocks and figures with a soft, slightly damp cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive water, as these can damage the plastic or printed details.
- **Storage:** Store the assembled model or disassembled pieces in a cool, dry place away from direct sunlight. Prolonged exposure to sunlight can cause discoloration or warping of the plastic.
- **Handling:** Handle the model with care to prevent pieces from detaching or breaking. Avoid dropping the assembled car.

Troubleshooting

If you encounter any issues with your Sluban Formula 1 M38-B0351 set, consider the following common solutions:

- **Missing Pieces:** Carefully check the packaging, including all bags and corners of the box. If pieces are genuinely missing, please refer to the product packaging for manufacturer contact information or contact the retailer.
- **Loose Connections:** Ensure blocks are pressed firmly together. Some connections may require more pressure than others to achieve a secure fit.
- **Difficulty Assembling:** Re-examine the instruction manual for the specific step causing difficulty. Often, a piece may be oriented incorrectly or an incorrect piece is being used.
