iLive Electronics IHB23B

iLive Surround Durable Bluetooth Speaker System

Model: IHB23B - User Manual

INTRODUCTION

This manual provides essential information for the setup, operation, and maintenance of your iLive Surround Durable Bluetooth Speaker System (Model IHB23B). Please read this manual thoroughly before using the product to ensure proper function and longevity.

The iLive Portable Wireless Speaker System with Built-In Subwoofer is designed to enhance your audio experience, whether streaming music via Bluetooth or connecting to various devices like TVs, DVD players, video game systems, MP3 players, or computers. This 3-speaker system features a durable wooden enclosure, LED light effects, and a built-in AC power cable. The stereo speakers are detachable, offering flexible placement options.

PACKAGE CONTENTS

Verify that all items are present in the package:

- Subwoofer Unit
- Left Speaker
- Right Speaker
- 3.5mm to RCA Audio Cable
- User's Guide
- Warranty Information

SETUP

1. Placement

Position the subwoofer unit on a stable, flat surface. The stereo speakers are detachable and can be placed on either side of the subwoofer, or further apart for a wider soundstage, depending on your preference and available space. Ensure adequate ventilation around all units.

2. Connecting Speakers

Connect the left and right satellite speakers to the corresponding audio output ports on the back of the subwoofer unit. Ensure connections are secure.

3. Power Connection

Plug the built-in AC power cable from the subwoofer into a standard wall outlet (AC 120V~60Hz). The unit is powered by corded electric.

4. Audio Input (Optional)

For wired connections, use the included 3.5mm to RCA audio cable to connect external devices (e.g., TV, MP3 player) to the audio input ports on the subwoofer.

OPERATING INSTRUCTIONS

1. Power On/Off

Press the power button located on the top of the subwoofer unit to turn the system on or off. The LED light effects will illuminate when the unit is powered on.

Image: The iLive speaker system displaying its blue LED light effects, enhancing the visual appeal in a room setting.

2. Bluetooth Pairing

The system supports Bluetooth V2.1 for wireless audio streaming. To pair your device:

- Ensure the speaker system is powered on.
- Activate Bluetooth on your mobile device (smartphone, tablet, etc.).
- Search for "IHB23B" or "iLive Speaker" in your device's Bluetooth settings.
- Select the speaker system to pair. A confirmation tone will sound when successfully connected.

Bluetooth connectivity works up to 33 feet (10 meters) and is compatible with all Bluetooth-enabled devices, including Apple and Android products.

BLUETOOTH WIRELESS

Effortlessly stream audio from your smartphone

Image: A person relaxing on a couch, effortlessly streaming audio from their smartphone to the iLive speaker system via Bluetooth wireless technology.

3. **Volume, Bass, and Treble Controls**

Adjust the master volume using the controls on the subwoofer unit. Separate bass and treble controls are also available to customize your audio output according to your preference.

Image: The iLive speaker system illustrating the presence of bass and treble controls, allowing users to fine-tune their audio experience.

4. **2.1 Channel Stereo Sound**

The system provides 2.1 channel stereo sound, consisting of two satellite speakers for clear highs and mids, and a dedicated subwoofer for rich, deep bass. This configuration delivers an immersive audio experience.

MAINTENANCE

- Keep the speaker system away from water or moisture.
- Clean the surfaces with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Ensure proper ventilation to prevent overheating. Do not block any ventilation openings.
- Avoid placing the unit in direct sunlight or near heat sources.
- Disconnect the power cable from the wall outlet if the unit will not be used for an extended period.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Power cable not connected; outlet not active.	Ensure power cable is securely plugged into a working outlet.
No sound	Volume too low; incorrect input selected; device not paired (Bluetooth); audio cable loose.	Increase volume on both speaker system and connected device. Ensure correct input. Re-pair Bluetooth device. Check audio cable connections.
Bluetooth connection issues	Device too far; interference; speaker not in pairing mode.	Move device closer to the speaker. Avoid obstacles. Ensure speaker is discoverable. Turn off and on Bluetooth on your device.
Distorted sound	Volume too high; audio source quality; speaker placement.	Lower volume. Try a different audio source. Adjust bass/treble controls. Ensure speakers are not obstructed.
