

BOSCH LST92-OD

BOSCH LST92-OD Deep Drawer Instruction Manual

Model: LST92-OD | Brand: BOSCH

1. INTRODUCTION

The BOSCH LST92-OD Deep Drawer is designed for efficient storage and transport of various accessories, bolts, screws, and small parts. It is an integral part of the Bosch Click & Go storage system, offering a roomy interior and an integrated handle for comfortable portability. This drawer can be used independently or seamlessly integrated with the Bosch L-BOXX-3D storage case (sold separately).

The Bosch Click & Go system is engineered to enhance productivity by providing organized, secure, and easily transportable solutions for tools and accessories, minimizing time spent searching for items on the job site or in the workshop.

2. SAFETY INFORMATION

⚠ IMPORTANT SAFETY WARNING:

Always secure the storage system to the wall or floor to prevent tip-overs when using the LST92-OD drawer, especially when stacked or heavily loaded.

3. SETUP

The LST92-OD Deep Drawer is designed for straightforward integration into the Bosch L-BOXX-3D storage case. Follow these steps for setup:

- 1. Prepare the L-BOXX-3D:** Ensure your Bosch L-BOXX-3D storage case is empty and ready to receive the drawer. The L-BOXX-3D is specifically designed to accommodate this deep drawer.
- 2. Insert the Drawer:** Gently slide the LST92-OD Deep Drawer into the designated slot within the L-BOXX-3D. The drawer is designed to slide in and out smoothly.
- 3. Secure the Drawer:** While the drawer itself does not lock into the L-BOXX-3D, the L-BOXX-3D's lid and locking mechanisms will secure the contents when closed.
- 4. Organize Contents:** Place your desired accessories, small parts, or hand tools into the deep interior of the drawer.

4. OPERATING INSTRUCTIONS

Using the LST92-OD Deep Drawer is intuitive, whether used standalone or as part of the L-BOXX system.

- **Accessing Contents:** When the drawer is integrated into an L-BOXX-3D, simply open the L-BOXX-3D's lid. The LST92-OD drawer can then be pulled out using its integrated handle to access stored items.
- **Transport:** The integrated handle on the LST92-OD allows for comfortable transport of the drawer on its own. When used with an L-BOXX-3D, the L-BOXX's handles facilitate transport of the entire system.
- **Stacking (with L-BOXX system):** The Bosch Click & Go system features an innovative click mechanism for easy connection and disconnection of multiple L-BOXX units. This allows for secure stacking and transport of various L-BOXX sizes, including those containing the LST92-OD drawer.

Video: This video provides a comprehensive overview of the Bosch Click & Go storage system, demonstrating its features, including stacking, portability, and various storage solutions like the LST92-OD Deep Drawer. It highlights how the system helps professionals organize and transport tools efficiently.

5. MAINTENANCE

The BOSCH LST92-OD Deep Drawer requires minimal maintenance to ensure its longevity and functionality.

- **Cleaning:** Wipe down the drawer with a damp cloth to remove dust, dirt, or debris. For stubborn grime, a mild soap solution can be used. Ensure the drawer is completely dry before storing items or reinserting into an L-BOXX.
- **Inspection:** Periodically inspect the drawer for any signs of damage, such as cracks or deformities, especially if it has been subjected to heavy loads or impacts.
- **Storage:** Store the drawer in a dry environment to prevent material degradation. While the L-BOXX cases offer some water resistance, the drawer itself is not rated for direct water exposure.

6. TROUBLESHOOTING

Most issues with the LST92-OD Deep Drawer are related to improper use or compatibility.

Problem	Possible Cause	Solution
Drawer does not fit into L-BOXX.	Incorrect L-BOXX model or obstruction.	Ensure you are using an L-BOXX-3D. Check for any debris or items blocking the drawer slot.

Problem	Possible Cause	Solution
Drawer is difficult to slide.	Excessive weight or debris in the tracks.	Reduce the load in the drawer. Clean the tracks within the L-BOXX-3D and on the drawer itself.
Items fall out of the drawer during transport.	L-BOXX lid not properly closed or system not secured.	Ensure the L-BOXX-3D lid is fully closed and latched. Always secure the entire L-BOXX system during transport to prevent movement.

7. SPECIFICATIONS
