Pearl EXX725

Pearl EXX725 Export Standard 5-Piece Drum Set Instruction Manual

1. INTRODUCTION

This manual provides essential information for the setup, operation, and maintenance of your Pearl EXX725 Export Standard 5-Piece Drum Set. The Export Series is renowned for its quality and performance, featuring Pearl's Superior Shell Technology (S.S.T.), Opti-Loc tom mounts, and durable 830 Series Hardware, including a P930 Demonator Pedal. Please read these instructions carefully to ensure proper assembly and optimal performance of your drum set.

2. PACKAGE CONTENTS

Your Pearl EXX725 Export Standard Drum Set package includes the following components. Please verify all items are present upon unboxing. Note that the item may ship in more than one box and may arrive separately.

- 5-piece Mahogany/Poplar Drum Kit (Jet Black Finish):
 - 22"x18" Bass Drum
 - 12"x8" Tom
 - 13"x9" Tom
 - 16"x16" Floor Tom
 - 14"x5.5" Matching Snare Drum (with REMO snare batter side head)
- 830 Series Hardware:
 - P930 Demonator Kick Pedal
 - Hi-Hat Stand
 - Cymbal Stands (various types)
 - Snare Stand
 - Tom Holders/Mounts (Opti-Loc system)
- Drum Key

3. SETUP AND ASSEMBLY

Follow these steps to correctly assemble your drum set. Ensure all components are securely fastened.

3.1. Bass Drum Assembly

1. Carefully place the bass drum shell on a soft surface to prevent scratches.
2. Install the bass drum heads (batter and resonant) onto the shell, ensuring they are centered.
3. Place the hoops over the drum heads and align the tension rod holes.
4. Insert the tension rods and finger-tighten them evenly around the drum. Use the provided drum key for final tuning.
5. Attach the bass drum spurs (legs) to the bass drum shell. Adjust their length and angle to provide stability.
6. Attach the P930 Demonator Kick Pedal to the bass drum hoop. Ensure it is securely clamped.

3.2. Tom-Tom Drums Assembly

1. Install the drum heads and hoops onto the 12" and 13" tom-tom shells, following the same procedure as the bass drum.
2. Attach the Opti-Loc tom mounts to the tom-toms.
3. Insert the tom holders into the bass drum mount. Position the tom-toms at a comfortable playing angle and height, then tighten all clamps.

3.3. Floor Tom Assembly

1. Install the drum heads and hoops onto the 16" floor tom shell.
2. Insert the three floor tom legs into their respective brackets on the shell. Adjust the height for comfortable playing.

3.4. Snare Drum Assembly

1. Install the drum heads and hoops onto the 14"x5.5" snare drum shell. The snare comes with a REMO batter head.
2. Assemble the snare drum stand. Place the snare drum into the basket of the stand and adjust its height and angle.

3.5. Hi-Hat Cymbals Assembly

1. Assemble the hi-hat stand, ensuring the clutch mechanism is correctly installed.
2. Place the bottom hi-hat cymbal onto the stand.
3. Attach the top hi-hat cymbal to the clutch and place it on the stand, adjusting the gap between the cymbals.

3.6. Crash and Ride Cymbals Assembly

1. Assemble the cymbal stands (crash and ride).
2. Place the cymbals onto their respective stands, using felts and wing nuts to secure them without overtightening.

3.7. Drum Throne Assembly

1. Assemble the base of the drum throne.
2. Attach the seat to the base and adjust the height for comfortable playing posture.

4. OPERATING YOUR DRUM SET

Once assembled, your Pearl EXX725 drum set is ready for use. Proper tuning and playing technique will enhance your experience.

4.1. Tuning

- Use the drum key to adjust the tension rods on each drum head. Tighten or loosen in small increments, moving across from opposite rods, until the desired pitch and resonance are achieved.
- Experiment with different tensions to find the sound that best suits your musical style.

4.2. Playing Posture

- Adjust your drum throne height so your thighs are slightly angled downwards, allowing your feet to comfortably reach the pedals.
- Position the drums and cymbals within easy reach, minimizing strain during play.

4.3. Performance Showcase

Experience the dynamic capabilities of the Pearl Export Drum Set in this performance by Ray Luzier.

5. MAINTENANCE

Regular maintenance will prolong the life and performance of your drum set.

- **Cleaning:** Wipe down drum shells and hardware with a soft, dry cloth after each use. For stubborn grime, use a slightly damp cloth and dry immediately. Avoid harsh chemicals.
- **Drum Heads:** The snare drum comes with a REMO batter side head. Drum heads will wear over time and may need replacement to maintain optimal sound.
- **Hardware:** Periodically check all nuts, bolts, and clamps for tightness. Loose hardware can affect stability and sound.
- **Cymbals:** Clean cymbals with a specialized cymbal cleaner or a soft, damp cloth. Avoid abrasive materials.

6. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Drums sound dull:** Check drum head tension. Ensure heads are not too loose or worn out.
- **Rattling sounds:** Inspect all hardware for loose components. Ensure nothing is vibrating against the drum shells or cymbals.
- **Pedal squeaks:** Apply a small amount of lubricant to moving parts of the kick pedal or hi-hat pedal.
- **Missing parts:** Refer to the package contents list. If an item is missing, contact Pearl customer support.

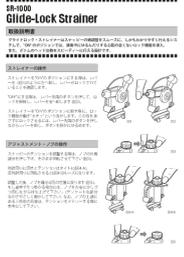

7. SPECIFICATIONS

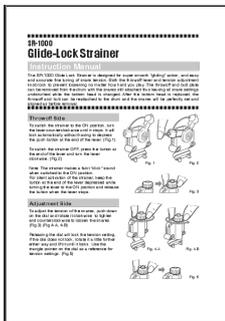

Feature	Detail
Model Name	EXX725
Set Name	Pearl EXX725/C 5-Piece Export Standard Drum Set
Color	Jet Black
Body Material	Poplar/Mahogany
