

Sparco SPC1019RS

Sparco S-Line Corsa 11-Piece Car Seat Cover Set

Model: SPC1019RS | Brand: Sparco

1. PRODUCT OVERVIEW

The Sparco S-Line Corsa 11-Piece Car Seat Cover Set is designed to protect your vehicle's interior while adding a sporty and stylish aesthetic. This universal fit set is made from durable 100% polyester material, featuring a striking red and black color combination. It is suitable for most car seats on the market, including those with side-airbags, providing a comprehensive solution for both front and rear seating.

2. WHAT'S IN THE Box

Your Sparco S-Line Corsa 11-Piece Car Seat Cover Set includes the following components:

- 2 x Front Seat Covers
- 3 x Rear Seat Covers (for bench seat)
- 5 x Headrest Covers
- Installation Hooks/Fasteners

3. SETUP AND INSTALLATION

Follow these steps for proper installation of your Sparco S-Line Corsa seat covers. While designed for universal fit, some minor adjustments may be necessary depending on your vehicle's specific seat design.

3.1 Front Seat Installation

1. **Prepare Seats:** Ensure your car seats are clean and free of debris. Remove any existing seat covers or accessories.
2. **Install Backrest Cover:** Slide the front seat backrest cover over the top of the seat. Align the Sparco logo with the headrest. Smooth out any wrinkles.
3. **Install Seat Base Cover:** Place the front seat base cover over the seat cushion. Ensure it is centered and covers the entire seating area.
4. **Secure Covers:** Locate the elastic straps and hooks attached to the covers. Pass the straps under the seat and connect them using the provided hooks to secure the covers tightly. For seats with side airbags, ensure the cover's design allows for proper airbag deployment (these covers are designed to be compatible).
5. **Install Headrest Covers:** Slide the headrest covers over the front seat headrests. Adjust for a snug fit.

3.2 Rear Seat Installation

1. **Prepare Rear Bench:** If possible, fold down or remove the rear bench seat to facilitate easier installation.
2. **Install Rear Backrest Cover:** Drape the larger rear backrest cover over the rear seat back. Secure it using the elastic straps and hooks, passing them through the gap between the backrest and the seat base if applicable.
3. **Install Rear Seat Base Cover:** Place the rear seat base cover over the rear seat cushion. Secure it similarly to the front seat base cover.
4. **Install Rear Headrest Covers:** Slide the remaining headrest covers over the rear headrests.
5. **Adjust for Seatbelts:** For rear seatbelts, you may need to carefully make small incisions in the fabric to allow the seatbelt buckles to pass through. Ensure these cuts are minimal and reinforced if possible to prevent fraying.

4. OPERATING AND USAGE

Once installed, your Sparco S-Line Corsa seat covers will provide immediate protection against spills, stains, dirt, and general wear and tear. The durable polyester material is designed for everyday use. The universal fit ensures compatibility with a wide range of vehicle models, enhancing the interior aesthetics with its distinctive red and black design.

These covers are designed to maintain the functionality of your original seats, including access to seatbelt buckles and compatibility with side airbags where applicable.

5. MAINTENANCE

To ensure the longevity and appearance of your Sparco S-Line Corsa seat covers, follow these maintenance guidelines:

- **Washing:** The seat covers are 100% polyester and washable. It is recommended to hand wash them with mild detergent in cold water.
- **Drying:** Air dry the covers completely before re-installing them. Do not tumble dry or use high heat, as this may damage the fabric or affect its shape.
- **Spot Cleaning:** For minor spills or stains, use a damp cloth with a small amount of mild soap to spot clean the affected area.
- **Avoid Harsh Chemicals:** Do not use bleach or strong chemical cleaners, as these can fade the color and degrade the material.

6. TROUBLESHOOTING

If you encounter any issues with your Sparco S-Line Corsa seat covers, consider the following common solutions:

- **Loose Fit:** Ensure all elastic straps and hooks are securely fastened under the seat. Re-adjust the covers to smooth out any slack.
- **Wrinkles/Creases:** New covers may have creases from packaging. These often smooth out with use over time. Gentle steaming or light ironing on a low setting (with a protective cloth) may help, but test on an inconspicuous area first.
- **Seatbelt Access Issues:** As mentioned in the installation section, some vehicles may require small, careful incisions for seatbelt buckles. Ensure these are made precisely to avoid damage to the cover.
- **Headrest Fit:** If headrest covers are too loose, you can try tucking excess fabric or using additional small clips (not included) for a tighter fit.

7. SPECIFICATIONS

Attribute	Detail
Brand	Sparco

Model Number	SPC1019RS (Manufacturer Part Number: SP 90073)
Color	Red and Black
Material	100% Polyester
Item Weight	Approximately 2.2 pounds (1 kg)
