3. OPERATING: PLAYBACK CONTROLS

Once "Argo" begins playing, you can use the on-screen controls or device-specific buttons to manage your viewing experience.

3.1. Basic Playback Functions

- **Play/Pause:** Click the play/pause icon or press the corresponding button on your remote/keyboard.
- **Fast Forward/Rewind:** Use the progress bar to jump to a specific time, or use the fast forward/rewind buttons.
- **Volume Control:** Adjust the volume using the on-screen slider or your device's volume buttons.
- **Subtitles/Closed Captions:** Click the "CC" icon to enable or disable subtitles. "Argo" supports subtitles.
- **Audio Tracks:** If available, select different audio tracks (e.g., original language, dubbed versions) via the audio icon.

3.2. Full Screen Mode

To enter or exit full screen mode, click the full screen icon (usually two arrows pointing outwards) or press the appropriate key (e.g., F11 on some web browsers).

4. MAINTENANCE: MANAGING YOUR DIGITAL CONTENT

While digital content like "Argo" doesn't require physical maintenance, managing your Prime Video library and device settings can enhance your experience.

- **Device Management:** Regularly check and manage registered devices in your Amazon account settings to ensure security and optimize streaming.
- **Download Management:** If you've downloaded "Argo" for offline viewing, periodically clear downloaded content to free up device storage.
- **App Updates:** Keep your Prime Video app updated to the latest version to ensure optimal performance and access to new features.

5. TROUBLESHOOTING COMMON ISSUES

Encountering issues while watching "Argo"? Here are some common problems and their solutions.

Problem	Solution
Movie not loading or buffering	Check your internet connection. Restart your router. Close other bandwidth-intensive applications. Try reducing video quality settings.
No sound or distorted audio	Check your device's volume. Ensure your speakers/headphones are connected correctly. Try selecting a different audio track if available. Restart the Prime Video app.
Poor video quality	Ensure you have a stable and fast internet connection. Check Prime Video playback settings for quality options. Your device might not support higher resolutions (e.g., UHD).
Subtitles not appearing	Verify that subtitles are enabled via the "CC" icon. Check your device's accessibility settings.
App crashing or freezing	Close and restart the Prime Video app. Clear the app's cache (if applicable on your device). Restart your device. Ensure the app is updated.
