## 1. INTRODUCTION

This manual provides detailed instructions for assembling and operating the Sluban Aviation M38-B0362 Cargo Plane building set. This set allows you to construct a cargo aircraft designed for transporting goods such as fuel tanks and food supplies. The model features a large-span propeller, a spacious cockpit for a single pilot, and a rear cargo area. The set also includes a ground vehicle for handling cargo.

The Sluban Aviation M38-B0362 Cargo Plane set contains 251 pieces and is part of the Sluban Aviation collection. It is designed to enhance building skills and visual development.

## 2. SAFETY INFORMATION

---

**WARNING: CHOKING HAZARD - Small Parts. Not suitable for children under 36 months (3 years) due to small parts which could be swallowed.**

- Always supervise children during assembly and play.
- Keep all packaging materials away from children to prevent suffocation.
- Inspect all pieces before assembly for any damage or defects. Do not use damaged parts.
- Ensure all connections are secure to prevent parts from detaching during play.
- This product is intended for indoor use.

## 3. PACKAGE CONTENTS

---

Before beginning assembly, please verify that all components are present. The Sluban Aviation M38-B0362 Cargo Plane set includes:

- 251 building block pieces for the cargo plane, cargo truck, and accessories.
- Instruction booklet for assembly.
- Minifigures (typically two, as shown in product images).
- Sticker sheet (if applicable, not explicitly mentioned but common for building sets).

If any pieces are missing or damaged, please contact Sluban customer support.

## 4. ASSEMBLY INSTRUCTIONS

---

Follow the step-by-step diagrams provided in the included instruction booklet. Sort pieces by color and type before starting to facilitate the building process.

### 4.1. Cargo Plane Assembly

1. Begin by assembling the base of the aircraft fuselage.
2. Attach the cockpit section, ensuring the pilot's seat is correctly positioned.
3. Construct and attach the wings, paying attention to the connection points for stability.
4. Assemble the propeller mechanism and attach it to the front of the aircraft.
5. Install the landing gear components.
6. Complete the tail section and any decorative elements.

Figure 4.1: Detail of the propeller attachment and wing connection points, highlighting the interlocking brick system.

Figure 4.2: Overview of the modular assembly process for the cargo plane, showing how sections like wings attach to the main body.

## 4.2. Cargo Truck and Accessories Assembly

1. Assemble the chassis of the cargo truck.
2. Attach the cabin and wheels.
3. Construct the trailer and its hitch mechanism.
4. Assemble the fuel barrels and other small accessories.

Figure 4.3: Detail of the cargo truck's trailer connection and wheel assembly, demonstrating secure attachment points.

## 5. OPERATION

Once assembled, the Sluban Cargo Plane and accompanying truck are ready for interactive play.

- **Cargo Loading:** Use the cargo truck to transport the fuel barrels to the aircraft. The rear section of the cargo plane is designed to accommodate these items.
- **Pilot Placement:** Open the cockpit canopy to place a minifigure pilot inside the aircraft.
- **Propeller Movement:** The propeller is designed to rotate manually, simulating flight.
- **Ground Operations:** The cargo truck can be detached from its trailer and used independently for ground support scenarios.

## 6. MAINTENANCE

To ensure the longevity and cleanliness of your Sluban building set, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the assembled model with a soft, dry cloth to remove dust. For more thorough cleaning, use a slightly damp cloth with mild soap and water, then dry immediately. Do not submerge in water.
- **Storage:** Store the model in a cool, dry place away from direct sunlight to prevent discoloration or warping of plastic parts.
- **Handling:** Handle the model carefully to avoid accidental disassembly or damage to delicate parts.
- **Disassembly:** If disassembling, keep all pieces organized to prevent loss and facilitate future reassembly.

## 7. TROUBLESHOOTING

This section addresses common issues encountered during assembly or play.

<b>Problem</b>	<b>Possible Cause</b>	<b>Solution</b>
Model is unstable or falls apart easily.	Pieces not fully pressed together; incorrect piece placement.	Ensure all bricks are firmly connected. Review the instruction booklet to confirm correct piece placement.
Missing a piece.	Piece overlooked during sorting; manufacturing error.	Carefully re-check all packaging and surrounding area. If still missing, contact Sluban customer support.
Difficulty connecting pieces.	Incorrect orientation; excessive force being used.	Ensure pieces are aligned correctly. Apply firm, even pressure. Do not force pieces together if they do not fit.

## 8. SPECIFICATIONS

<b>Feature</b>	<b>Detail</b>
Model Number	M38-B0362
Product Name	Cargo Plane (Avion de Transport)
Brand	Sluban
Number of Pieces	251
Recommended Age	6 - 12 years
Material	Plastic
Assembled Dimensions (L x W x H)	Approximately 28.5 x 28.5 x 5.41 cm (11.2 x 11.2 x 2.1 inches)
Item Weight	200 Grams (0.44 lbs)
Educational Value	Building skills, Visual development

Figure 8.1: Assembled cargo plane with approximate length dimension of 26.5 cm indicated.

## 9. WARRANTY AND SUPPORT

Information regarding specific warranty details for Sluban products is typically provided within the product packaging or on the official Sluban website.

For missing parts, damaged components, or general inquiries, please refer to the contact information provided in your product box or visit the official Sluban customer support portal.

**Note:** Availability of spare parts is not explicitly guaranteed by the manufacturer based on available product information.
