SPE 20/30/40 DVD

20/30/40 DVD Instruction Manual

Essential information for your 20/30/40 DVD viewing experience.

PRODUCT OVERVIEW

The 20/30/40 DVD presents a film by writer-director Sylvia Chang, exploring the lives of three women in Taipei at different stages of their lives: 20-year-old Xiao Jie, 30-year-old Xiang Xiang, and 40-year-old Lily Zhao. Each woman navigates significant personal and professional crossroads. The film features performances by Lee Sinje, Rene Liu, and Sylvia Chang herself. This edition is newly remastered for enhanced viewing quality.

SETUP

To begin watching your 20/30/40 DVD, follow these steps:

1. **Prepare Your Equipment:** Ensure your DVD player is connected to your television or display device and both are powered on.
2. **Insert the Disc:** Gently open the DVD player's disc tray or slot. Hold the DVD by its edges to avoid fingerprints on the playing surface and place it label-side up into the tray. Close the tray.

3. **Select Input:** Using your TV remote, select the correct input source (e.g., HDMI 1, AV, Component) that corresponds to your DVD player's connection.
4. **Automatic Playback:** Most DVD players will automatically begin playing the disc or display a main menu. If not, press the 'Play' button on your DVD player or its remote control.

OPERATING INSTRUCTIONS

Familiarize yourself with common DVD player controls for an optimal viewing experience:

- **Play/Pause:** Press to start or temporarily stop playback.
- **Stop:** Press to end playback and return to the beginning of the disc or main menu.
- **Fast Forward/Rewind:** Use these buttons to quickly scan through the movie. Multiple presses often increase the speed.
- **Chapter Selection:** Use the 'Next Chapter' or 'Previous Chapter' buttons to jump between predefined sections of the film.
- **Menu:** Press to access the DVD's main menu, where you can select scenes, adjust audio settings, or choose subtitles.
- **Language/Subtitle Selection:** On the DVD menu or via a dedicated button on your remote, you can select different audio tracks (if available) or turn subtitles on/off and choose a language.

MAINTENANCE

Proper care of your DVD will ensure its longevity and continued playback quality:

- **Cleaning:** If the disc becomes dirty or smudged, gently wipe the playing surface (the shiny side) with a soft, lint-free cloth. Wipe from the center of the disc outwards in straight lines, not in a circular motion. Do not use abrasive cleaners or solvents.
- **Storage:** Store the DVD in its original case when not in use. Keep it away from direct sunlight, extreme temperatures, and high humidity. Avoid stacking discs without their cases, as this can lead to scratches.
- **Handling:** Always handle the disc by its edges or the center hole to prevent fingerprints and scratches on the playing surface.

TROUBLESHOOTING

If you encounter issues while playing your DVD, consider the following common problems and solutions:

Problem	Solution
Disc not playing or skipping	Check the disc for visible scratches or smudges. Clean the disc as described in the Maintenance section. Ensure the disc is inserted correctly. Try playing another DVD to confirm the player is functioning.
No audio or video	Verify all audio/video cables are securely connected between the DVD player and the TV. Check the TV's input selection. Ensure the TV and DVD player are not muted and volume is up.
Subtitles not appearing	Access the DVD's main menu or use the 'Subtitle' button on your remote to enable subtitles and select the desired language.

Problem	Solution
Disc tray not opening/closing	Ensure the DVD player is powered on. If the issue persists, consult your DVD player's instruction manual or contact its manufacturer for assistance.

SPECIFICATIONS
