# Miele Care Collection Dishwasher Detergent Tabs (120 Count, Citrus) Instruction Manual

## 1. PRODUCT OVERVIEW

---

The Miele Care Collection Dishwasher Detergent Tabs are formulated to deliver superior cleaning performance for your dishes. This package contains 120 tablets with a refreshing citrus scent.

Each tablet features a powerful enzyme formula and a three-layer construction designed for effective wash results. The tablets are individually sealed in a water-soluble wrapper, which dissolves during the wash cycle, eliminating the need for direct contact with the detergent.

## 2. SETUP

Before using the detergent tabs, ensure your dishwasher is prepared for a wash cycle.

- Ensure the dishwasher is empty of previous dishes and large food debris.
- Confirm the detergent dispenser compartment is clean and dry before placing a new tab.
- Load dishes according to your dishwasher's instructions, ensuring spray arms are not obstructed.

## 3. OPERATING INSTRUCTIONS

Follow these steps for optimal use of Miele Care Collection Dishwasher Detergent Tabs:

1. Take one Miele Care Collection Dishwasher Detergent Tab from the package. Do not remove the water-soluble wrapper.
2. Place the tab directly into the detergent compartment of your dishwasher.
3. Close the detergent compartment lid securely.
4. Select the desired wash program on your dishwasher.

5. Start the dishwasher cycle. The tab will dissolve during the wash.

## 4. MAINTENANCE

---

Proper storage and general dishwasher care contribute to the effectiveness of the detergent tabs.

- **Storage:** Store Miele Care Collection Dishwasher Detergent Tabs in their original packaging in a cool, dry place. Avoid exposure to direct sunlight, high humidity, or extreme temperatures.
- **Dishwasher Care:** Regularly clean your dishwasher's filter and spray arms to prevent blockages and ensure optimal water distribution, which is crucial for detergent performance.
- **Rinse Aid and Salt:** For best results, especially in areas with hard water, ensure your dishwasher's rinse aid and salt reservoirs (if applicable) are adequately filled.

## 5. TROUBLESHOOTING

---

If you encounter issues with your dishwashing results, consider the following:

- **Dishes Not Clean:**
  - Ensure the detergent compartment opened fully during the wash cycle.
  - Check that the dishwasher's spray arms are not blocked by dishes or food particles.
  - Verify that the water temperature is appropriate for the selected wash program.
  - Avoid overloading the dishwasher, which can prevent water and detergent from reaching all surfaces.

- **Residue on Dishes:**

- Ensure proper loading to allow adequate water circulation and rinsing.
- Check the rinse aid dispenser level and refill if necessary. Rinse aid helps prevent water spots and promotes drying.
- If you have hard water, consider using Miele dishwasher salt in conjunction with the tabs, if your dishwasher has a salt reservoir.

## 6. SPECIFICATIONS

Brand	Miele
Model Number	DishwasherTabs
Item Form	Tablet
Scent	Citrus
Material Feature	Concentrated
Number of Items	120
Product Dimensions	7 x 4 x 7 inches; 1.4 Pounds

## 7. IMPORTANT SAFETY INFORMATION

Please read and follow all safety precautions to prevent injury or damage.

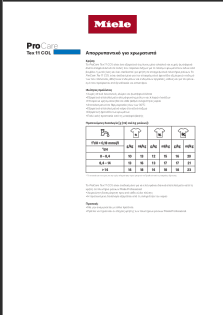

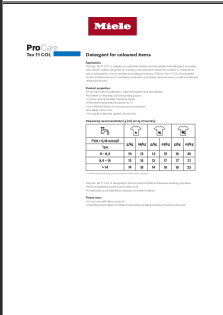

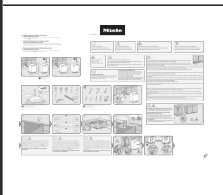

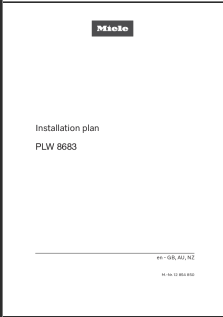

- **DANGER:** Causes serious eye damage. Avoid contact with eyes. In case of eye contact, rinse immediately with plenty of water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice immediately.
