This image shows the main product, a large red toy car with the number 95, designed to resemble Lightning McQueen from the Cars movies.

Key Features:

- Inspired by the Disney/Pixar Cars animated film series.
- Large size for easy handling and play.
- Activates signature phrases and motor sounds.
- Interactive play by pushing the hood and rolling the vehicle.

3. SETUP

3.1 Unboxing

Carefully remove the Lightning McQueen Vehicle from its packaging. Ensure all packaging materials are discarded safely, especially small plastic parts, to prevent choking hazards.

This image displays the Lightning McQueen toy inside its original retail box, highlighting its features like "70+ phrases & sounds".

3.2 Battery Installation

The vehicle requires 3 AA batteries, which are included. If replacement is needed:

1. Locate the battery compartment on the underside of the vehicle.
2. Using a Phillips head screwdriver, unscrew the battery compartment cover.
3. Insert 3 new AA batteries, ensuring correct polarity (+/-).
4. Replace the cover and secure it with the screw.

Note: Always use fresh batteries of the same type. Do not mix old and new batteries, or different types of batteries.

4. OPERATING INSTRUCTIONS

4.1 Activating Sounds and Phrases

To activate Lightning McQueen's signature phrases and motor sounds:

- **Push on his hood:** Gently press down on the hood of the vehicle to "wake him up" and hear various phrases and engine revs.
- **Roll him around:** As you roll Lightning McQueen across a surface, he will emit additional signature phrases and sounds, enhancing the play experience.

This image illustrates how to roll the toy car, which activates additional sounds and phrases during movement.

5. MAINTENANCE

5.1 Cleaning

To clean the Lightning McQueen Vehicle, wipe it with a slightly damp cloth. Do not immerse the toy in water or use harsh cleaning agents, as this may damage the electronic components.

5.2 Storage

Store the vehicle in a cool, dry place away from direct sunlight when not in use. If storing for an extended period, it is recommended to remove the batteries to prevent leakage.

6. TROUBLESHOOTING

6.1 No Sound or Intermittent Sound

- **Check Batteries:** Ensure the batteries are correctly installed with the proper polarity. Replace with fresh AA batteries if they are low or depleted.
- **Activation:** Confirm that you are pressing the hood firmly enough or rolling the vehicle consistently to trigger sounds.

6.2 Vehicle Not Responding

- **Battery Check:** As above, verify battery status and installation.
- **Power Cycle:** Remove and reinsert the batteries to reset the electronics.
