4. MAINTENANCE

Proper care will ensure the longevity and appearance of your die-cast model.

- **Cleaning:** Use a soft, dry cloth for light dusting. For smudges or fingerprints, gently wipe with a slightly damp cloth and then immediately dry with a clean, soft cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or chemical sprays, as these can damage the paint finish or plastic components.
- **Handling:** Always handle the model by its main body. Avoid gripping small, delicate parts like mirrors or spoilers to prevent breakage.
- **Storage:** Store the model in a cool, dry place, away from direct sunlight to prevent fading of paint and interior details.

5. TROUBLESHOOTING

This die-cast model is a static display item with limited moving parts. Most issues can be resolved with careful handling.

- **Stiff Moving Parts:** If doors, hood, or trunk feel stiff, apply gentle, even pressure. Do not force them open or closed. Avoid applying lubricants.
- **Loose Parts:** Small parts may become loose over time. If a part detaches, it can often be reattached with a small amount of model-safe adhesive, applied sparingly.
- **Scratches/Paint Chips:** Minor scratches or paint chips can sometimes be touched up with model paint, but this is not officially recommended and may affect the collectible value.
