

VENTA LW25

Venta LW25 Original Humidifier Instruction Manual

Model: LW25

INTRODUCTION

The Venta LW25 Original Humidifier is designed to humidify dry room air in spaces up to 430 square feet using evaporative humidification. This filter-free system is hygienic, simple to use, and easy to clean. It helps maintain optimal indoor air quality by humidifying air to an ideal 40-60% humidity level, which can reduce static electricity and preserve wooden furnishings.

PRODUCT OVERVIEW

Figure 1: Front view of the Venta LW25 Original Humidifier in white.

The Venta LW25 operates on the principle of cold evaporation, a method recognized for its efficiency and hygiene. It does not require filters, simplifying maintenance and reducing operational costs. The unit features a disk stack that rotates in a water reservoir, allowing clean water to evaporate and humidify the air.

SETUP AND INITIAL OPERATION

Unpacking and Placement

1. Carefully remove the humidifier from its packaging.
2. Place the unit on a flat, stable surface in the desired room. Ensure there is adequate space around the unit for optimal air circulation.

Filling the Water Reservoir

1. Separate the upper housing from the lower water reservoir.
2. Fill the lower water reservoir with fresh tap water. The capacity is approximately 2 gallons. Do not overfill.
3. Add the recommended amount of Venta Water Treatment Additive to the water. This helps maintain hygiene and prevents mineral buildup.
4. Carefully place the upper housing back onto the water reservoir, ensuring it is securely seated.

Figure 3: Venta Water Treatment Additive, recommended for use with the humidifier.

Power Connection

- Plug the power cord into a suitable electrical outlet.

OPERATING INSTRUCTIONS

Power On/Off

Press the power button to turn the unit on or off. The unit will automatically begin humidifying the air.

Fan Speed Adjustment

The Venta LW25 typically offers multiple fan speed settings (e.g., low, medium, high). Adjust the fan speed according to your preference and the desired humidification rate. Higher fan speeds will humidify the air more quickly but may produce more ambient noise.

Figure 4: Close-up of the control panel on the Venta LW25, showing power and fan speed buttons.

Automatic Shut-off

The humidifier is equipped with an automatic shut-off feature. When the water level in the reservoir is too low, the unit will automatically turn off to prevent damage.

MAINTENANCE

Regular maintenance is crucial for optimal performance and longevity of your Venta LW25 Humidifier.

Routine Cleaning (Every 10-14 Days)

1. Unplug the unit from the power outlet.
2. Separate the upper housing from the lower water reservoir.
3. Empty any remaining water from the reservoir.
4. Rinse the water reservoir and the disk stack thoroughly with warm water. You can use a soft brush or cloth to

remove any residue.

- 5. Refill the reservoir with fresh water and add Venta Water Treatment Additive.
- 6. Reassemble the unit.

Deep Cleaning (Every 3 Months or as Needed)

For a more thorough cleaning, use Venta Cleaner. Follow the instructions provided with the Venta Cleaner product. This helps remove stubborn mineral deposits and ensures hygienic operation.

- **Note:** The Venta LW25 is a filter-free system, eliminating the need for filter replacements.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit not turning on	No power; water level too low	Check power connection; refill water reservoir.
Insufficient humidification	Low fan speed; large room size; dirty unit	Increase fan speed; ensure unit is appropriate for room size; perform routine cleaning.
Unpleasant odor	Stagnant water; mineral buildup	Empty and clean reservoir regularly; use Venta Water Treatment Additive.

SPECIFICATIONS

- **Brand:** VENTA
- **Model Name:** LW25 Original
- **Color:** White
- **Operation Mode:** Evaporative
- **Special Feature:** No filters
- **Floor Area Coverage:** Up to 430 Square Feet
- **Product Dimensions:** 12"D x 12"W x 13"H
- **Item Weight:** 8.5 Pounds
- **Room Type:** Bedroom, Living Room
- **Included Components:** Humidifier, Water Treatment Additive
- **Wattage:** 8 watts
- **Capacity:** 2 Gallons
- **Care instructions:** Hand Wash
