

## iFrogz IF-SKP-PNK

# iFrogz Skip On-Ear Headphones (Model IF-SKP-PNK) User Manual

Model: IF-SKP-PNK

## 1. INTRODUCTION

Thank you for choosing the iFrogz Skip On-Ear Headphones. This manual provides essential information for the proper setup, operation, and maintenance of your headphones. Please read this guide thoroughly before use and retain it for future reference.

## 2. SAFETY INFORMATION

To ensure safe operation and prevent damage, please observe the following guidelines:

- Avoid prolonged listening at high volumes to prevent hearing damage.
- Do not use headphones in situations where inability to hear ambient sounds could be dangerous (e.g., driving, cycling, walking in traffic).
- Keep the headphones dry. Do not expose them to water or moisture.
- Do not attempt to disassemble or modify the headphones. This will void the warranty.
- Keep out of reach of small children.

## 3. PACKAGE CONTENTS

Verify that all items are present in your package:

- iFrogz Skip On-Ear Headphones (Model IF-SKP-PNK)
- User Manual (this document)

## 4. PRODUCT FEATURES

- Crisp Sound and lightweight design
- Adjustable band for various head sizes
- Driver Unit: 30 mm neodymium
- Impedance: 32 ohms
- Sensitivity: 105 dB +/- 3 dB at 1 kHz
- Frequency Response: 20 Hz to 20 kHz
- Cord Length: 1.2 m

## 5. SETUP

### 5.1 Unpacking

Carefully remove the headphones from their packaging. Ensure no components are left behind.

### 5.2 Adjusting the Headband

Gently extend or retract the headband slides on both sides until the earcups rest comfortably over your ears. The headband should fit snugly without causing undue pressure.

Image: Side view of the iFrogz Skip On-Ear Headphones, showing the adjustable headband and earcup design within its packaging.

### 5.3 Connecting to an Audio Source

The iFrogz Skip headphones feature a standard 3.5mm audio jack. To connect:

1. Locate the 3.5mm audio port on your smartphone, tablet, computer, or other audio device.
2. Insert the 3.5mm audio plug from the headphone cable firmly into the audio port of your device.

Ensure the connection is secure for optimal audio transmission.

## 6. OPERATING INSTRUCTIONS

### 6.1 Wearing the Headphones

Place the headphones on your head with the earcups covering your ears. Adjust the headband for a comfortable and secure fit. The earcups are designed to rest on your ears.

### 6.2 Audio Playback

Once connected to your audio source, begin playing audio from your device. Control the volume directly from your connected device.

## 7. MAINTENANCE

### 7.1 Cleaning

- Use a soft, dry cloth to wipe the exterior surfaces of the headphones.
- Do not use liquid cleaners, aerosols, or harsh chemicals.
- Avoid getting moisture into any openings.

### 7.2 Storage

When not in use, store the headphones in a clean, dry place away from extreme temperatures and direct sunlight. Avoid tangling the cable by coiling it loosely.

## 8. TROUBLESHOOTING

| Problem                                   | Possible Cause                             | Solution                                                                                              |
|-------------------------------------------|--------------------------------------------|-------------------------------------------------------------------------------------------------------|
| No sound                                  | Cable not fully plugged in.                | Ensure the 3.5mm jack is fully inserted into both the headphones and the audio device.                |
|                                           | Audio source volume too low or muted.      | Increase the volume on your audio device. Check if the device is muted.                               |
|                                           | Incorrect audio output selected on device. | Verify your device's audio settings to ensure output is directed to the connected headphones.         |
| Poor sound quality (distorted, crackling) | Loose cable connection.                    | Re-seat the 3.5mm audio jack.                                                                         |
|                                           | Damaged cable.                             | Try using the headphones with a different audio source to isolate the issue.                          |
|                                           | Audio source issue.                        | Test the audio source with another pair of headphones to confirm it's functioning correctly.          |
| Headphones are uncomfortable              | Improper headband adjustment.              | Adjust the headband slides until the earcups sit comfortably on your ears without excessive pressure. |
