## 7. MAINTENANCE

---

Proper maintenance ensures the longevity and performance of your charger:

- **Cleaning:** Disconnect the charger from the power outlet and your device before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and moisture when not in use.
- **Cable Care:** Avoid bending or twisting the cable excessively, especially near the connectors, to prevent internal damage. Do not pull the cable to unplug the charger; always grasp the plug head.

## 8. TROUBLESHOOTING

---

If you encounter issues with your PWR+ charger, refer to the following common solutions:

Problem	Possible Cause	Solution
Device not charging	No power to charger; incorrect connector; loose connection; faulty device port.	Ensure charger is firmly plugged into a working outlet. Verify the correct charging tip (Micro-USB or USB-C) is securely attached and inserted into the device. Test with another device or cable if possible.
Slow charging	Device drawing more power than charger provides; background apps; damaged cable.	Close unnecessary apps on your device. Ensure your device is fully compatible with 3.5A/18W charging. Inspect the cable for any visible damage.
Charger feels warm	Normal operation during charging; excessive load.	It is normal for chargers to become warm during use. If it becomes excessively hot, disconnect immediately and contact support. Ensure adequate ventilation around the charger.
Blue LED not lit	No power to charger.	Check if the charger is properly plugged into a live power outlet. Try a different outlet.
