SETUP AND ASSEMBLY

Follow these steps to assemble your 3D Crystal Puzzle Owl:

1. **Unpack and Sort:** Carefully remove all pieces from the packaging. It is helpful to sort the pieces by shape or size before you begin.
2. **Identify Key Pieces:** Locate the base pieces and any central connecting pieces, as these often form the foundation of the puzzle.

3. **Interlock Pieces:** Begin interlocking the pieces according to the provided diagram or by matching their unique shapes. The pieces are designed to fit snugly together. Some force may be required, but avoid excessive pressure to prevent damage.
4. **Build Layer by Layer:** Most 3D crystal puzzles are built in layers. Work methodically, ensuring each piece is correctly oriented and fully interlocked before adding the next.
5. **Use the Key:** The included key can be used to help push pieces into place or to secure them. Refer to the diagram for specific points where the key might be most useful.
6. **Complete the Model:** Continue assembling until all 42 pieces are interlocked and the owl figure is complete.

OPERATING AND DISPLAY

Once assembled, your 3D Crystal Puzzle Owl is ready for display. Place it on a flat, stable surface where it can be admired. The translucent pieces catch and reflect light, creating a sparkling effect.

These puzzles are designed for display and are not intended for rough handling or as toys for young children.

MAINTENANCE AND CARE

To keep your 3D Crystal Puzzle Owl looking its best:

- **Cleaning:** Gently dust the puzzle with a soft, dry cloth. For more thorough cleaning, use a slightly damp cloth with plain water, then dry immediately with a soft, lint-free cloth. Avoid abrasive cleaners or harsh chemicals.
- **Storage:** If you need to store the puzzle, ensure it is placed in a secure container to prevent pieces from becoming dislodged or damaged.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause the plastic to become brittle or discolored over time.

TROUBLESHOOTING

Problem	Solution
Pieces do not fit together.	Ensure the pieces are correctly oriented. Some pieces may look similar but have subtle differences. Refer to the assembly diagram. Apply gentle, even pressure.
Puzzle is unstable after assembly.	Check that all pieces are fully interlocked and seated correctly. The key can help secure stubborn connections. Ensure the base is firmly attached.
Missing a piece.	Carefully check your work area and packaging. If a piece is genuinely missing, contact Bepuzzled customer support.
