### Clinique 6339100000

# Clinique Touch Base For Eyes Cream Eye Shadow and Primer Canvas User Manual

Model: 6339100000

## 1. PRODUCT OVERVIEW

---

Clinique Touch Base For Eyes is a versatile, creamy eye shadow primer that adds color and glimmer. This product is designed to resist creasing, fading, and smudging, ensuring your eye makeup stays fresh throughout the day. It can be worn alone for a subtle look or used as an eyelid primer to enhance the longevity and vibrancy of other eye shadows.

Image: Clinique Touch Base For Eyes in Canvas shade, with the compact open.

Versatile, creamy  
eye color resists  
creasing.

Wear it alone or use it as an eyelid  
primer for other eye shadows.

Image: The product is available in multiple shades, including Canvas, Nude Rose, and Canvas Light, offering versatile options for different skin tones and preferences.

## 2. SETUP

---

The Clinique Touch Base For Eyes is ready for use directly from its packaging. No assembly or complex setup is required. Simply open the compact to access the product.

### Available in 3 shades

- Versatile, creamy eye color resists creasing.

Image: The compact is designed for easy handling and portability.

## 3. OPERATING INSTRUCTIONS

---

Follow these steps for optimal application:

1. Using your ring finger, gently apply the cream eye shadow primer color from your lashline up to your brow bone.
2. Blend the product gently across the eyelid for an even application.
3. The product can be worn alone for a natural, subtle look or used as a base under other powder or cream eye shadows to enhance their wear.

## How to use:

Use your ring finger to apply from lashline to brow; blend gently.

Wear alone or under other eye shadows.

Remove with your favorite Clinique makeup remover.

## 4. CARE AND MAINTENANCE

---

To ensure the longevity and effectiveness of your Clinique Touch Base For Eyes, follow these care instructions:

- **Prevent Drying:** Always close the compact completely and securely after each use. This prevents the product from drying out and maintains its creamy texture.
- **Removal:** To remove the product, use a dedicated eye makeup remover such as Clinique Take The Day Off Makeup Remover For Lids, Lashes & Lips, or your preferred gentle makeup remover.

## 5. TROUBLESHOOTING

---

While Clinique Touch Base For Eyes is formulated for high performance, here are some common concerns and their solutions:

- **Product feels dry or hard:** Ensure the compact is always closed tightly after use. Exposure to air can cause the product to dry out. If it has dried, a small amount of eye-safe hydrating mist can sometimes help, but consistent proper sealing is key.
- **Eye shadow creasing or fading:** This product is designed to resist creasing and fading. Ensure you are applying a thin, even layer. If issues persist, check for proper blending and consider if other products used in conjunction might be affecting performance.
- **Irritation:** Clinique products are formulated to be gentle. If irritation occurs, discontinue use and consult a healthcare professional. Refer to the safety information section for details on product testing.

## 6. SPECIFICATIONS

---

Attribute	Detail
Brand	Clinique
Model Number	6339100000
Product Dimensions	7.62 x 5.08 x 149.86 cm; 8.5 g
Date First Available	August 9, 2012
Manufacturer	Clinique
Country of Origin	USA
Color	Canvas
Finish Type	Shimmery
Special Feature	Priming
Material Type Free	Paraben Free
Number of Items	1

Unit Count	1.0 Count
Coverage	Eyes
Skin Type	Normal

## 7. SAFETY INFORMATION

Clinique is committed to eye safety. The Clinique Eye Safety Promise ensures rigorous testing and formulation for sensitive areas:
