

K9 MUNDIALSSX

K9 MUNDIALSSX 1-Way Car Alarm Security System

Model: MUNDIALSSX

Brand: K9

1. OVERVIEW

The K9 MUNDIALSSX is a 1-Way Car Alarm Security System designed to provide essential protection for your vehicle. This system includes a main control unit, two four-button transmitters, a siren, wiring harnesses, and various sensors to ensure comprehensive security. It operates on a 12V system and offers 16 programmable features for customized security.

Key Features:

- Two four-button transmitters for remote control.
- Keyless Entry functionality.
- Siren and car horn activation for audible alerts.
- 2 Auxiliary channel outputs for additional functions.
- Silent Arm/Disarm option.

Product Components Overview

Image: K9 MUNDIALSSX Car Alarm System components laid out on a wooden table, including the main unit, two remote controls, siren, and various wiring harnesses.

This image displays all the essential components included in your K9 MUNDIALSSX Car Alarm Security System. It features the central control unit, two sleek four-button remote controls, the powerful siren, and all necessary wiring harnesses for installation. Also visible are a relay and a switch for trunk/hood monitoring, along with an LED indicator.

Unboxing and Initial Look

Video: A detailed unboxing and initial overview of the K9 MUNDIALSSX Car Alarm System, showcasing its components and remote controls.

2. SETUP & INSTALLATION

The K9 MUNDIALSSX Car Alarm Security System is a 12V system. Installation involves connecting various components to your vehicle's electrical system. A wiring diagram is included in the package to guide the installation process.

Professional Installation Recommended: Due to the complexity of vehicle electrical systems, professional installation by a qualified auto electrician is highly recommended to ensure proper functionality and avoid damage to your vehicle or the alarm system. Incorrect installation can lead to system malfunction or electrical issues.

Installation and Testing Demonstration

Video: This video demonstrates the installation process of a car alarm system, including connecting the horn main unit to the engine compartment and testing the alarm's sensitivity.

3. OPERATING INSTRUCTIONS

The K9 MUNDIALSSX system offers convenient remote control over your vehicle's security features using the provided four-button transmitters.

Remote Control Functions:

- **Arm/Disarm:** Press the lock button to arm the alarm and the unlock button to disarm. The system provides audible confirmation.
- **Silent Arm/Disarm:** This feature allows you to arm or disarm the system without audible chirps, providing discretion.
- **Keyless Entry:** The system supports automatic unlocking when you approach your vehicle and automatic locking when you walk away (proximity unlock/lock).
- **Remote Trunk Release:** If your vehicle is equipped with an automatic trunk, the remote control can be used to pop the trunk.
- **Panic/Car Finder:** A dedicated button on the remote can activate the siren to help locate your vehicle or deter potential threats.

Remote Control Features Demonstration

Video: This video demonstrates the various functions of the remote controls for a car alarm system, including arming, disarming, and trunk release.

4. MAINTENANCE

To ensure the longevity and optimal performance of your K9 MUNDIALSSX Car Alarm Security System, regular maintenance is recommended.

- **Battery Replacement:** The remote controls require 1 Lithium Ion battery. Replace batteries as needed to maintain remote functionality.
- **System Check:** Periodically test the alarm system by arming it and gently shaking the vehicle to ensure the siren activates.
- **Wiring Inspection:** If you notice any unusual behavior, have a professional inspect the wiring for any loose connections or damage.
- **Cleaning:** Keep the main unit and sensors free from dirt and moisture.

5. TROUBLESHOOTING

If you encounter issues with your K9 MUNDIALSSX Car Alarm Security System, consider the following troubleshooting steps:

- **Alarm Not Arming/Disarming:** Check the remote control batteries. Ensure you are within range of the vehicle.
- **False Alarms:** The system's sensitivity may be too high. Consult the installation manual or a professional to adjust the shock sensor sensitivity.
- **Siren Not Sounding:** Check the siren's connections and ensure it is properly powered.
- **Remote Control Malfunction:** Try replacing the remote control battery. If the issue persists, the remote may need reprogramming or replacement.
- **System Power Issues:** Verify that the main unit is receiving constant 12V power from the vehicle's

battery. Check all fuses in the wiring harness.

For complex issues, it is always recommended to consult a professional auto electrician.

6. SPECIFICATIONS

Feature	Detail
Product Dimensions	7.48 x 4.33 x 4.13 inches
Item Weight	1.63 pounds
ASIN	B00C92O2UQ
Item Model Number	MUNDIALSSX
Batteries Required	1 Lithium Ion batteries (for remote)
Other Display Features	Wireless
Manufacturer	K9
Date First Available	March 23, 2012
Compatible Devices	Cars
Remote Control Included?	Yes
Global Trade Identification Number	00289538914038

7. WARRANTY & SUPPORT

For warranty information and technical support, please refer to the documentation included in your product packaging or contact the manufacturer directly. Keep your proof of purchase for any warranty claims.
