Orbit 62120 Garden Enforcer Motion-Activated Sprinkler User Manual

Model: 62120

INTRODUCTION

The Orbit 62120 Garden Enforcer Motion-Activated Sprinkler is designed to protect your landscapes and gardens from unwanted animals. This device combines a motion-activated spray with noise to deter pests. It also features a timed watering function for convenient garden irrigation.

SAFETY INFORMATION

Please read all instructions carefully before operating the device. Ensure the sprinkler is placed in a stable position to prevent tipping. Do not direct water spray towards electrical outlets or equipment. Keep out of reach of children and pets when in operation to avoid accidental activation or injury. Always disconnect from the water source before performing any maintenance or adjustments.

PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- Orbit Garden Enforcer Motion-Activated Sprinkler Unit
- Adjustable Tripod Stand
- Instruction Manual (this document)
- Required Batteries (4 AA batteries, not included)

Image: The Orbit Garden Enforcer Motion-Activated Sprinkler, showing the main unit mounted on a tripod stand.

SETUP

1. **Assemble the Tripod Stand:** Extend the legs and secure them firmly. Ensure the stand is stable on a flat surface.

Image: A close-up view of the tripod base, showing the sturdy leg design for stability.

2. **Install Batteries:** Locate the battery compartment on the sensor unit. Insert 4 AA batteries, ensuring correct polarity.

Image: A detailed view of the sensor unit, highlighting the control dials and the motion sensor dome.

3. **Connect to Water Source:** Attach a standard garden hose to the inlet connection at the base of the sprinkler unit. Ensure a tight, leak-free connection.

Image: The Orbit Garden Enforcer set up in a garden, with a green garden hose connected to its base, ready for operation.

4. **Position the Sprinkler:** Place the sprinkler in the desired area, ensuring the sensor has a clear line of sight to the area you wish to protect. The sensor detects movement up to 40 feet away.

OPERATING INSTRUCTIONS

The Garden Enforcer offers both motion-activated deterrence and timed watering capabilities.

Motion-Activated Deterrence

The heat and motion-activated sensor triggers a burst of water when movement is detected within its range. This feature is effective for deterring animals from specific areas.

- **Adjusting Sensitivity and Range:** Use the "RANGE" dial on the sensor unit to adjust the detection distance.
- **Day/Night/Always Mode:** Use the "DAY/NIGHT/ALWAYS" dial to select when the sensor is active.
 - **DAY:** Sensor active during daylight hours.
 - **NIGHT:** Sensor active during nighttime hours.
 - **ALWAYS:** Sensor active 24 hours a day.
- **Spray Duration:** The "DURATION" dial controls how long the water sprays after activation.

Video: Orbit Garden Enforcer Motion Sensor Sprinkler Overview

Your browser does not support the video tag.

This video provides a comprehensive overview of the Orbit Garden Enforcer Motion Sensor Sprinkler, demonstrating its features and how it operates to deter animals.

Timed Watering Feature

In addition to animal deterrence, the Garden Enforcer can be used for timed watering. This allows you to water your garden for 30 minutes at a time.

- **Activate Timed Watering:** Use the "30 MIN WATER CYCLE" switch to initiate a 30-minute watering session.
- **Flow-Through Outlet:** The unique flow-through outlet allows you to connect additional sprinklers, extending your watering or deterrence coverage.

Image: A hand adjusting the sprinkler head of the Orbit Garden Enforcer, showing the manual adjustment capability for spray direction.

MAINTENANCE

- **Battery Replacement:** Replace batteries when the unit's performance diminishes or the indicator light (if present) signals low battery.
- **Cleaning:** Periodically clean the sensor lens with a soft, damp cloth to ensure optimal detection. Remove any debris from the sprinkler head to maintain proper water flow.
- **Winterization:** Before freezing temperatures, disconnect the unit from the water source, drain all water, and store it indoors to prevent damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Sprinkler not activating.	Low or dead batteries; sensor obstructed; range too low; unit in OFF mode.	Replace batteries; clear sensor path; increase range setting; set to DAY, NIGHT, or ALWAYS.
Weak water spray.	Low water pressure; clogged sprinkler head; kinked hose.	Check water supply pressure; clean sprinkler nozzle; straighten hose.
Unit sprays continuously.	Sensor constantly detecting movement; faulty sensor.	Adjust placement to avoid constant detection; contact support if sensor is faulty.

SPECIFICATIONS

Brand: Orbit

Model: 62120

Style: Garden Enforcer

Color: Black

Material: Metal

Item Dimensions (L x W x H): 35.25 x 7 x 6.5 inches

Item Weight: 5.3 pounds

Maximum Pressure: 100 PSI

Power Source: 4 AA batteries (not included)

Motion Detection Range: Up to 40 feet

WARRANTY AND SUPPORT

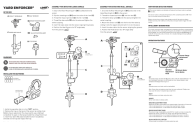

For warranty information or technical support, please refer to the official Orbit website or contact their customer service. Keep your purchase receipt for warranty claims.
