

## SteelSeries 63008

# SteelSeries QcK Heavy Mouse Pad User Manual

Model: 63008

## PRODUCT OVERVIEW

The SteelSeries QcK Heavy mouse pad is designed for esports professionals, featuring a legendary micro-woven fabric surface that optimizes mouse tracking precision for both optical and laser sensors. Its high thread density and smooth surface ensure consistent and accurate mouse movements. This durable and washable mouse pad is easy to clean and maintain, providing a reliable gaming surface.

Image: Top view of the SteelSeries QcK Heavy Mouse Pad, showcasing its large, black surface and the SteelSeries logo in the corner.

## PACKAGE CONTENTS

The package for your SteelSeries QcK Heavy Mouse Pad should contain the following item:

- One (1) SteelSeries QcK Heavy Mouse Pad

## SETUP

1. **Unpack the Mouse Pad:** Carefully remove the SteelSeries QcK Heavy Mouse Pad from its packaging.
2. **Prepare the Surface:** Ensure your desk or gaming surface is clean and free of dust or debris.

3. **Place the Mouse Pad:** Lay the mouse pad flat on your desired surface. The non-slip rubber base will help keep it securely in place during use.
4. **Allow to Flatten:** If the mouse pad has been rolled for packaging, it may take a short period to completely flatten out. You can gently roll it in the opposite direction or place heavy, flat objects on the corners for a few hours to expedite this process.

## OPERATING INSTRUCTIONS

---

The SteelSeries QcK Heavy Mouse Pad is a passive accessory designed to enhance your mouse's performance. No active operation is required.

- **Mouse Compatibility:** This mouse pad is optimized for both optical and laser gaming mice, providing consistent and precise tracking.
- **Enhanced Control:** The micro-woven fabric surface offers a balance of glide and control, allowing for accurate mouse movements during gaming or general computer use.
- **Stability:** The heavy, non-slip rubber base ensures the mouse pad remains firmly in place, even during intense gaming sessions.

## MAINTENANCE

---

Regular cleaning will help maintain the performance and longevity of your SteelSeries QcK Heavy Mouse Pad.

1. **Spot Cleaning:** For minor spills or dirt, use a soft, damp cloth with a small amount of mild soap. Gently wipe the affected area.
2. **Deep Cleaning:** For a more thorough clean, the mouse pad can be hand-washed.
  - Fill a basin with lukewarm water and a small amount of mild detergent (e.g., dish soap).
  - Submerge the mouse pad and gently agitate it with your hands. Avoid harsh scrubbing or using abrasive materials.
  - Rinse thoroughly under cool, running water until all soap residue is removed.
3. **Drying:** Lay the mouse pad flat on a clean towel to air dry. Do not use a machine dryer, direct sunlight, or high heat, as this can damage the rubber base and fabric surface. Ensure the mouse pad is completely dry before re-using it.

## TROUBLESHOOTING

Most issues with a mouse pad are related to its physical condition or placement. Here are some common troubleshooting tips:

Problem	Possible Cause	Solution
Mouse tracking is inconsistent or jumpy.	Dirty mouse sensor. Dust or debris on the mouse pad surface. Mouse pad not lying completely flat.	Clean your mouse sensor with a soft cloth. Wipe the mouse pad surface with a clean, damp cloth. Ensure the mouse pad is laid flat. Refer to the <a href="#">Setup</a> section.

Problem	Possible Cause	Solution
Mouse pad slides on the desk.	Desk surface is too smooth or dirty. Mouse pad base is dirty.	Clean the desk surface. Wipe the rubber base of the mouse pad with a damp cloth to remove any dust or oils.
Edges of the mouse pad are curling.	Prolonged storage in a rolled position. Exposure to extreme temperatures.	Gently roll the mouse pad in the opposite direction. Place heavy, flat objects on the curled edges for an extended period. Store the mouse pad flat when not in use.

SPECIFICATIONS

Feature	Detail
Brand	SteelSeries
Model Number	63008
Color	Black
Material	Micro-woven fabric surface with non-slip rubber base
Dimensions (L x W)	711 mm x 450 mm (27.99 in x 17.72 in)
Thickness	Approximately 6 mm (0.24 in) <i>(Inferred from product type)</i>
