SWISSINNO 1 280 001

SWISSINNO Mouse Trap No See No Touch Instruction Manual

Model: 1 280 001

1. PRODUCT OVERVIEW

The SWISSINNO No See No Touch Mouse Trap is designed for effective and hygienic mouse control. This trap features a pre-baited, refillable design and a precision strike mechanism to ensure efficient capture. The enclosed design allows for disposal of captured rodents without direct sight or touch, promoting hygiene.

Catch & Kill without seeing or touching.

***Certified for efficient
& humane function.***

2. SAFETY INFORMATION

- Keep out of reach of children and pets.
- The trap contains a powerful spring mechanism. Exercise caution when setting to avoid injury.
- The pre-baited lure contains peanut butter. Individuals with peanut allergies should handle with care.
- Use the trap carefully to avoid attracting protected or non-target animals.
- Always wash hands thoroughly after handling the trap, especially after disposing of a captured rodent.

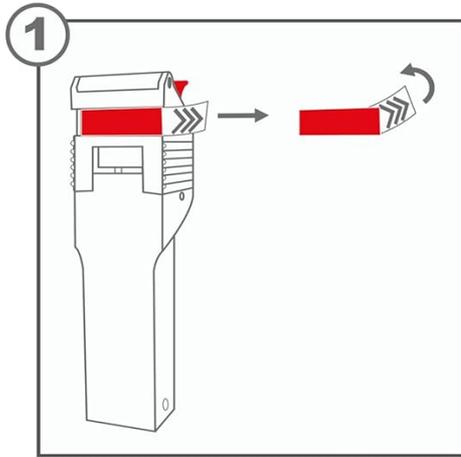

3. PACKAGE CONTENTS

- 1 x SWISSINNO No See No Touch Mouse Trap (pre-baited)

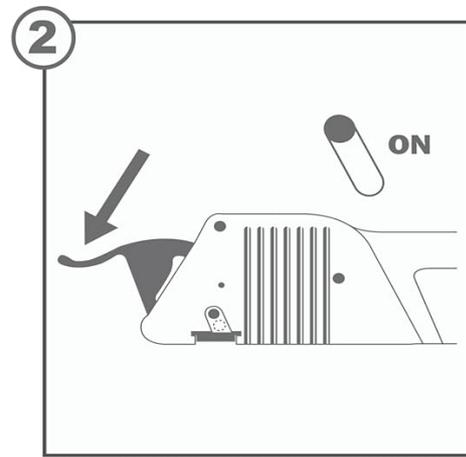

4. SETUP INSTRUCTIONS

1. **Remove Bait Cover:** Locate the bait compartment at the end of the trap. Slide the red bait cover off to expose the pre-baited lure.

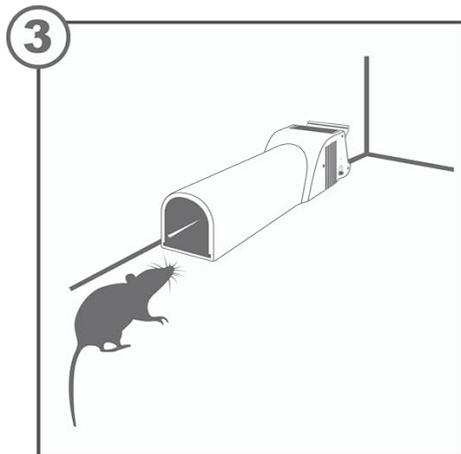

How to use Mousetrap NO SEE NO TOUCH

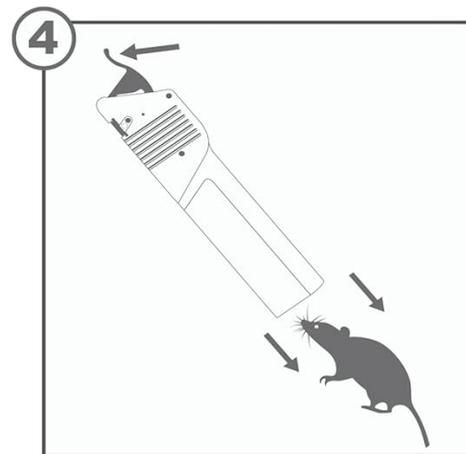

Remove bait cover.

Press the lever down.

Catch the mouse.

Dispose of the mouse.

Image: Step-by-step guide showing removal of the bait cover.

2. **Set the Trap:** Press the red lever down firmly until it locks into place. This action sets the trap mechanism.

***Patented easy catch system.
Easy setup with one hand.***

Image: Hand pressing the red lever to set the trap.

3. **Placement:** Position the trap in areas where mouse activity is observed. Mice rarely move across open spaces, so place the trap with the open side facing a wall or in a corner.

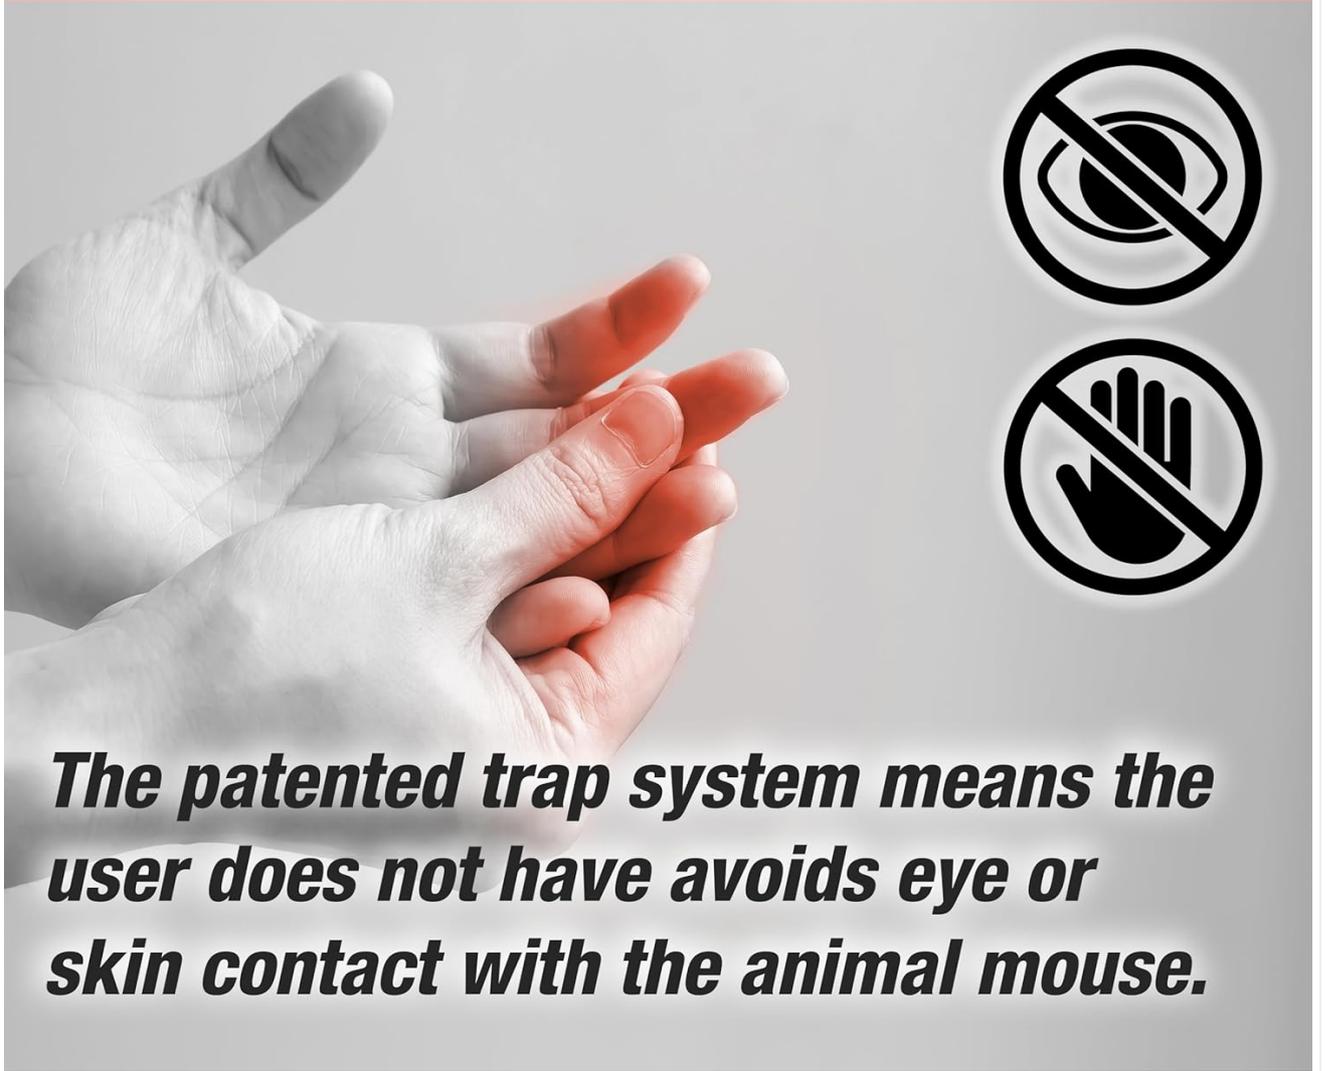

Setup Video Guide:

5. OPERATING INSTRUCTIONS

1. **Checking the Trap:** Regularly check the trap. The red lever will be in the "up" position if a mouse has been caught.
2. **Disposal:** To dispose of a captured mouse, hold the trap over a waste bin. Press the red lever down again to release the mouse directly into the bin without needing to see or touch it.

***Swiss patented
technology.***

The patented trap system means the user does not have to avoid eye or skin contact with the animal mouse.

Image: Illustration of the no-touch disposal method, highlighting the hygienic aspect of the trap.

3. **Resetting:** After disposal, the trap can be reset by pressing the red lever down until it locks, making it ready for reuse.

6. MAINTENANCE

- **Refilling Bait:** The trap comes pre-baited. For continued use, the bait can be refreshed with SWISSINNO replacement bait syringes. Slide off the bait cover and apply new bait.

Refillable trap, safe for pets and children.

Image: Demonstrates how to open the trap for refilling bait, showing peanut butter as an example.

- **Cleaning:** If necessary, the trap can be cleaned with warm water and mild soap. Ensure it is completely dry before resetting.
- **Storage:** Store the trap in a cool, dry place away from direct sunlight and out of reach of children and pets when not in use.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Trap snaps immediately when placed down.	Trap may be overly sensitive or improperly set.	Ensure the lever is fully locked into the set position. Place the trap gently on a stable, flat surface. If sensitivity persists, try placing it on a soft cloth or mat.

Problem	Possible Cause	Solution
No mice caught.	Incorrect placement, old bait, or mice are avoiding the trap.	<p>Relocate the trap to areas of high mouse activity (e.g., along walls, behind appliances).</p> <p>Ensure the open end faces a wall.</p> <p>Refresh the bait with SWISSINNO replacement bait or a small amount of peanut butter.</p> <p>Ensure no human scent is on the trap by handling it with gloves.</p>
Trap is sprung but no mouse is caught.	Mouse may have triggered the trap but escaped, or the trap was accidentally triggered.	<p>Ensure the trap is placed on a stable surface where it won't be easily disturbed.</p> <p>Verify the bait is securely in place and not easily removed without triggering the mechanism.</p> <p>Consider using a different bait type if mice are consistently taking the bait without being caught.</p>

8. SPECIFICATIONS

Feature	Detail
Brand	SWISSINNO
Model Number	1 280 001
Style	Mosuetrap No See No Touch
Material	Plastic
Product Dimensions	2"L x 5"W x 2"H (approx. 5 cm L x 12.7 cm W x 5 cm H)
