6. Maintenance

Proper care will ensure the longevity of your building block set.

- **Cleaning:** To clean the blocks, gently wipe them with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the plastic or printed designs.
- **Storage:** Store the building blocks in a cool, dry place away from direct sunlight to prevent discoloration or warping. Keep them in a container to prevent loss of small pieces.
- **Inspection:** Periodically inspect the blocks for any signs of wear or damage. Replace any broken or severely worn pieces to maintain structural integrity and safety.

7. Troubleshooting

If you encounter any issues during assembly or play, please refer to the following common solutions:

- **Confusing Instructions:** If the colored instruction manual seems unclear, re-examine the images and step sequence carefully. Sometimes, rotating the pieces or viewing from a different angle can clarify the next step.
- **Loose Connections:** Ensure that each block is fully pressed down and connected. Some blocks may require a firm push to snap into place securely.
- **Missing Pieces:** If you believe a piece is missing, double-check the packaging and surrounding area. If a piece is genuinely missing, please contact Sluban customer support for assistance.
- **Compatibility:** This set is designed to be compatible with bricks from other leading brands. If you experience issues with compatibility, ensure the blocks are correctly aligned and pressed firmly.
