Reebok R1001

Reebok Designer Eyeglasses R1001 Instruction Manual

Model: R1001

INTRODUCTION

This instruction manual provides essential information for the proper setup, operation, and maintenance of your Reebok Designer Eyeglasses R1001. Please read this manual thoroughly to ensure optimal use and longevity of your eyewear.

SETUP

Upon receiving your Reebok R1001 eyeglasses, perform an initial inspection to ensure all components are intact. These frames are equipped with demo lenses and are designed to be fitted with custom prescription lenses by a qualified optician. The demo lenses are for display purposes only and do not offer vision correction.

Figure 1: Angled view of Reebok R1001 Eyeglasses, showcasing the frame design and demo lenses.

Your eyeglasses feature adjustable silicone nose pads. These can be gently adjusted by an optician to achieve a precise and comfortable fit on your nose bridge. Avoid attempting to bend the frame or temples yourself, as this may cause damage.

Figure 2: Front view of the Reebok R1001 Eyeglasses, highlighting the semi-rimless design and adjustable nose pads.

OPERATING (WEARING AND ADJUSTING)

To wear your eyeglasses, gently place them on your face, ensuring the temples rest comfortably over your ears and the nose pads sit evenly on your nose bridge. The lightweight metal frames are designed for comfort.

- **Proper Fit:** The eyeglasses should feel secure without causing pressure points. If the fit is too loose or too tight, or if the frames slide down your nose, consult your optician for professional adjustment.
- **Nose Pad Adjustment:** The silicone nose pads can be adjusted by an optician to customize the fit and ensure the lenses are positioned correctly in front of your eyes.

MAINTENANCE

Proper care will extend the life and maintain the appearance of your Reebok R1001 eyeglasses.

- **Cleaning Lenses:** Use the provided Reebok cleaning cloth or a soft, lint-free cloth specifically designed for eyewear. For stubborn smudges, use a specialized lens cleaning spray or mild soap and lukewarm water. Avoid using paper towels, clothing, or harsh chemical cleaners, as these can scratch the lenses or damage coatings.
- **Cleaning Frames:** Wipe the frames with a soft, damp cloth. Avoid submerging the entire frame in water, especially if your custom lenses are not waterproof.
- **Storage:** When not in use, always store your eyeglasses in the original Reebok hard case to protect them from scratches, dust, and accidental damage. Avoid leaving them exposed to extreme temperatures, such as on a car dashboard.

- **Handling:** Always handle your eyeglasses by the frames, not the lenses. Avoid placing them face down on surfaces to prevent scratching the lenses.

TROUBLESHOOTING

This section addresses common issues you might encounter with your eyeglasses.

Issue	Possible Cause	Solution
Eyeglasses slide down nose	Nose pads are too wide or temples are too loose.	Visit an optician for nose pad and temple adjustment.
Eyeglasses feel too tight	Nose pads are too narrow or temples are too tight.	Visit an optician for nose pad and temple adjustment.
Lenses are constantly dirty/smudged	Improper cleaning method or dirty cleaning cloth.	Refer to the "Maintenance" section for proper cleaning instructions. Ensure your cleaning cloth is clean.
Frame appears bent or misaligned	Accidental impact or improper handling.	Do not attempt to bend the frame back yourself. Visit an optician for professional repair or adjustment.
