## 6. TROUBLESHOOTING

---

This section addresses common issues you might encounter with your futon set.

### **Issue: Difficulty converting the futon.**

- **Solution:** Ensure the area around the futon is clear. For Queen size futons, it is often easier with two people. One person can lift the mattress slightly while the other adjusts the frame mechanism. Ensure the mechanism is fully engaged or disengaged at each position.

### **Issue: Futon mattress has an odor after unboxing.**

- **Solution:** This is normal for new mattresses. Allow the mattress to air out in a well-ventilated room for several days. The odor will dissipate over time.

## Issue: Frame feels wobbly or unstable.

- **Solution:** Check all assembly bolts and screws. Tighten any loose fasteners. Ensure the futon is on a level surface.
